

2-on-1 GROUNDBALLS

OBJECTIVE

To improve communication on groundballs and to practice using extra players to your advantage.

SPACE/EQUIPMENT

- Balls
- Goal

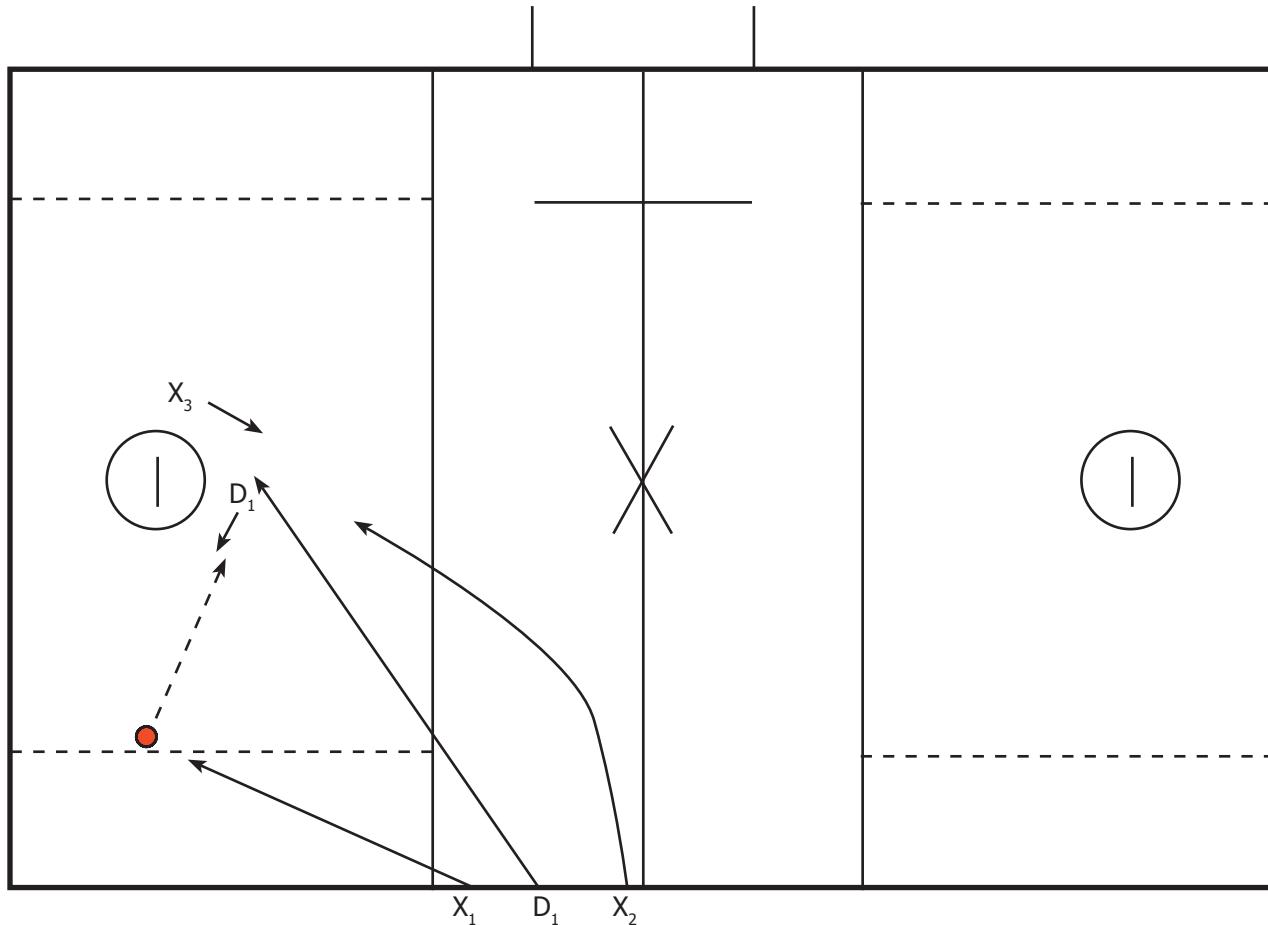

PLAYERS NEEDED

All players can participate in this drill simultaneously, but there should be no more than 10-12 in a group at one time.

DRILL-EXECUTION

Along the near sideline, set three lines of players – the two on the outside are the offense, and the one in the middle is on defense. The first players in each line should step out with their eyes looking forward. A coach will then roll a ball out in front of them and then will fight to pick up the ball. If an offensive player picks up the ball, he must pass it to his teammate before passing it to a coach. If a defensive player wins the groundball, he must immediately pass it to a coach.

Drill Diagram

SKILLS PRACTICED

- Man/Ball communication
 - Scooping under pressure
 - Moving the ball after picking it up
-

This drill can – and should – be practiced using both hands. To increase the competitiveness, challenge offensive players to do 10 push-ups each time a defender wins the groundball. To increase the difficulty of the drill, add an extra offensive and defensive player and station them by the goal – if the offense wins the initial groundball, they will attack the goal and play out a 3-on-2 live situation; if the defense wins the initial groundball, they must clear it to the midfield line.

VARIATIONS/PROGRESSION

Full, when playing the 3-on-2 on the goal.
