RE: Summer ACE Report
From: Terry Evavold
Date: 6-17-2011

The ACE group has not had a chance to meet since this fall. We are currently working on the following projects and with hopes of having them finished within the next few months.

- Completing the 2011-2012 Association ACE Coordinator Directory
- Looking for a new District ACE coordinator for D16 as long time ACE Scott Riopelle has accepted the position of CIC within D16 and we are currently looking for support for him.
- Coaching Education Program will be enhanced this year with the following ACE Coordinators and ADM Trainers being trained to deliver level one clinic within their districts and to better support the growing need for more education within association coaches.
 - John Peterson D2 ACE
 - Terry Dvorak D5 ACE
 - Mark Palmer D6 ACE
 - Steve Morse D8 ACE
 - Derek Thompson D15 ACE
 - Chris Lonke ADM Trainer
 - Wes Bolin ADM Trainer
 - Terry Evavold ACE/ADM Trainer
- We will be forming a team to support the training that CIC Koeling and Tearse put together on the delivery within the District and Associations for Body Contact. All ACE Coordinators will support this program.
- We will again be delivering ADM Training within each district and will once again have the support of USA Hockey and Guy Gosselin Regional Manager. We will host an event within each district and if need be we will be able to support multiply sessions within any district with the use of the Minnesota Hockey ADM team.
- I will host a last summer and early fall meeting as we will have a lot on the plate this season with all the changes to the Coaching Education Program and within the rule changes as it relates to "body contact"

Respectfully Submitted

Terry Evavold
