

Association members;

The season is underway and moving full speed ahead. The board would like to wish all teams good luck during the season and have fun.

We would like to make a change in the concession work schedule in December and going forward. We have scheduled two families per night during the Open skate/Open hockey nights or other special events. The concession stand will no longer be open for practices due to the fact that sales and attendance on these nights do not financially benefit concessions being open. We have two families scheduled for the following reason and how the two families manage those areas amongst them during those hrs is up to you. One family will be required to handle concession operations and front lobby supervision while the other family will monitor the rink, upper and lower viewing, and the rink areas so those attending the sessions follow the rink rules posted. Other things that need to be done include; sweeping and cleaning the bleachers and lobby area, cleaning locker rooms, vacuuming upstairs and downstairs viewing areas. Please record your hours on the Work Log. **If you are unable to work your scheduled night remember it is your duty to find a replacement.**

Keep a close eye in the Benson paper as the holiday schedule will be out very soon, while students are on break. We will be posting current work hrs and rink rat hrs to date, soon. Thanks to all Association members for registering on time this year. Also, all members' registration dues were paid in full this year before the season started.

Thanks,

BHA Board: Jeff DeHaan, Nathan Thompson, Sarah Wold, Robyn Aarhus, Jason Madden, Angela Pendill, Janet Johnson, Nicole Hadfield, Tom Hoffman
