INTRODUCTION

As part of an ongoing effort to promote enthusiasm and enjoyment in hockey, USA Hockey has prepared a Practice Plan Manual for 10-and-Under (Squirts).

The objective of this manual is to provide coaches with the resources to create a positive and healthy environment for players to learn. The emphasis is to develop a non-competitive environment for the younger age levels that stresses the fun of playing and the learning of basic skills.

This manual provides the coach with the knowledge to develop successful practice sessions. The drills have been developed to stress the youngsters' individual improvement. The fundamental skills of skating, puck control, passing, shooting and checking are presented in a progressive manner.

It is important that coaches prepare and organize their session prior to going on the ice. The better thought out a practice, the more successful it will be. Coaches are encouraged to use their own imagination to create drills.

The overall emphasis at the 10-and-Under (Squirt) level is fun, enjoyment, and a maximum amount of active participation for each player.

OBJECTIVES

- ❖ Enjoyable introduction and experience in ice hockey.
- ❖ Provide a healthy atmosphere for fun and learning.
- ❖ Introduce the concept of games and the fun in playing hockey.
- ❖ Development of communication at the player's level of learning.
- ❖ Encourage the players to enjoy, learn and continue to play hockey.
- ❖ Develop qualities important to hockey: quickness, agility, coordination, balance, strength and flexibility.

PHILOSOPHY

Enjoyment and recreational benefits are the major focus of new guidelines for youth hockey issued by the USA Hockey Board of Directors. More than 80% of registered teams play in the classification of 8-and-Under (Mite), 10-and-Under (Squirt), 12-and-Under (Pee Wee), 14-and-Under (Bantam), 16-and-Under (Midget), 18-and-Under (Midget), prompting the Youth Council of USA Hockey to emphasize the educational and recreational values of ice hockey.

The USA Hockey recommended guidelines for youth hockey encourage an environment in which children and youth can learn the basic skills without the distractions that are often associated with an overemphasis on winning. Mastery of the fundamental skills and the fun of playing are essential to the development of a lifelong interest in hockey. Programs must be conducted to accommodate the number of new players who wish to play hockey and to reduce the number who become disenchanting and drop out.

These voluntary guidelines are directed at youth programs, but they must be implemented by adults if they are to influence youth hockey programs. Coaches, parents, administrators and rink operators must all do their part to ensure that the USA Hockey philosophy and the following guidelines are upheld.

THE COACH

Your impression upon these young players is profound. How they relate to the game of hockey depends upon you. Your role is vital and heavy with responsibility.

The Coach...

- Shapes the player's views through their actions and attitudes.
- At times, plays a more important role than the child's parents.
- Is a teacher.
- Is a leader.

Coach's Code of Conduct:

- Hockey is fun.
- Honest representation; skills should decide the final outcome of games.
- Opponents are to be respected and complimented.
- Rules and regulations are to be viewed as mutual agreement in spirit and trust.
- Officials are to be viewed as honest arbitrators.
- Winning is a consideration, but not the only one, nor the most important one.
- Set a good example of behavior.

Teach Players to:

- Play for the love of the game.
- Respect their opponent.
- Play for the good of the team.
- Accept the official's decisions and respect their judgment.
- Play within the rules of the game.
- Be generous in victory and gracious in defeat.
- Always conduct yourself with honor and pride.
- To play the game is great, to win the game is greater, to LOVE the game is the greatest.

RECOMMENDED PROGRAMS.

- ❖ Three practices to every game.
- ❖ Practice sessions lasting one to one and a half hours.
- ❖ While emphasis of development of the fundamental skills is still important, it becomes important that more time is now spent teaching the principles of the game.

25 games maximum = 75 practices

ON-ICE TRAINING

- One hour practice
- Individual instruction
- Fun games
- Scrimmage
- Cross ice and small game activities
- Skating
- Passing and receiving
- Shooting
- Puck handling

Prepare interesting and challenging practice sessions. Utilize all the variables within each time allotment, i.e., backward skating, turning, etc., within the skating time allotment.

OFF-ICE TRAINING

- Only for those who wish to participate.
- Stress flexibility.
- Encourage players to participate in all sports.
- Develop qualities important to hockey.

DEVELOPMENT OF SPEED

- ❖ Sudden bursts in different directions
- ❖ Obstacle courses
- ❖ Track and field
- ❖ Soccer
- ❖ Jumping
- ❖ Team combination drills
- ❖ Wrestling

PHYSICAL PREPARATION

- ❖ Daily physical education.
- ❖ Stress proper posture.
- ❖ Include games and activities that involve physical contact and rough and tumble play in a safe and organized environment.
- ❖ Stress agility, quickness, balance, coordination and dexterity.
- ❖ Encourage the players to participate in school activities and other sports.
- ❖ Flexibility drills.
- ❖ Alternate work and rest periods. Youngsters are easily fatigued.

PSYCHOLOGICAL PREPARATION

- ❖ By seeking alignment with peer groups, team loyalty develops. These youngsters need the coach's approval and encouragement.
- ❖ Help the players develop self-reliance and independence.
- ❖ Build confidence.
- ❖ Stress group participation and sharing, but be aware of the individual needs of the youngster.
- ❖ Support and protect the youngster in situations they are not prepared to handle.

TECHNICAL PREPARATION

- ❖ Introduction of specific skills by position.
- ❖ Master principle game elements, methods and techniques.
- ❖ Continued refinement of skills necessary to perform elements of team play.
- ❖ Introduction of checking skills and techniques.

TACTICAL PREPARATION

- ❖ Development of attention, visual memory, relaxed concentration and orientation.
- ❖ Simple combinations in pairs, or in a line.
- ❖ Simple game situation theory (when to pass, when to shoot, where to pass, where to shoot).
- ❖ Introduction to group interactions.
- ❖ Introduction of a basic team system including offensive and defensive tactics.

Take three cones and make a equal lateral triangle, each about 15 ft. apart. Skate up to cone alternate right and left skates using inside edges.

Outside Edge - Start with left skate first, on outside edge.

KEEP SKATES POINTING STRAIGHT AHEAD.

Description: Railroad Tracks

First do stationary then have them move down the ice. Get in power stance position. Shift the weight from one side to the other - have stick move in line with bent knee. One leg bends while the other extends.

After doing stationary, move down the ice (keep both skates on the ice all the time) shifting weight by bending and extending legs.

Theme: Shifting Weight
