

Listed below are the top rated teams that competed in the 2006-2007 Great Northwest season. We list 32 teams each for grades 6, 7 and 8 for purposes of determining who will be invited to the League Championship Tournament (LCT). These ratings are a by-product of the power rating system. Our ratings work on a formula basis, much like college basketball's RPI or college football's Bowl Coalition rating system. You will note that many teams are rated ahead of one or more teams to which they lost during the course of the season. It is consistency during the season that determines the final ratings, even though late season play is weighted more heavily than early season play. Teams that dropped in the rankings from the season before shouldn't necessarily feel that they have regressed. At each grade level, we added several teams for the 2006-2007 season. Many of these teams were rated at the B+ level or higher, making it more difficult to make the top 32. Also note that teams playing "up" a grade level are not included in the rankings. For example, a 6th grade "A" team playing in some 6th and some 7th grade meets, is ranked only with the 6th grade teams. Note also Paragraph B-11 in your 2006-2007 rule book: "Teams that fail to play at least three meets during the 2006-2007 season, or who declined to play in the most recent LCT and offer no legitimate excuse for doing so, will not be included in this season's year-end rankings of top 32 teams at each grade level." There are at least one or two teams at each grade level that would otherwise have been ranked below, but are not, because of Rule B-11. We have, however, made exceptions for teams that played in at least two strong meets last season and have made a more significant commitment to the League for the 2007-2008 season. Since this top 32 ranking exists solely for the purpose of determining which teams will be invited to the League Championship Tournament, and in what order, it would be confusing to list teams not eligible to play in the LCT.
