

Listed below are the top 25 rated teams for the 8 grades of teams that competed in the 2000-2001 Great Northwest season. These ratings are a by-product of the power rating system. Our ratings work on a formula basis, much like college basketball's RPI or college football's Bowl Coalition rating system. You will note that many teams are rated ahead of one or more teams to which they lost during the course of the season. It is consistency during the season that determines the final ratings, even though late season play is weighted more heavily than early season play. Teams that dropped in the rankings from the season before shouldn't necessarily feel that they have digressed. At each grade level, we added 20 or more teams from the 1999-2000 season. Many of these teams ended up being rated at the B+ level or higher, making it more difficult to make the top 25. Also note that teams playing "up" a grade level are not included in the rankings. For example, a 6th grade "A" team playing in some 6th and some 7th grade meets, is ranked only with the 6th grade teams.
