

## Quick Start Guide to Discover Games and Upload stats to the website

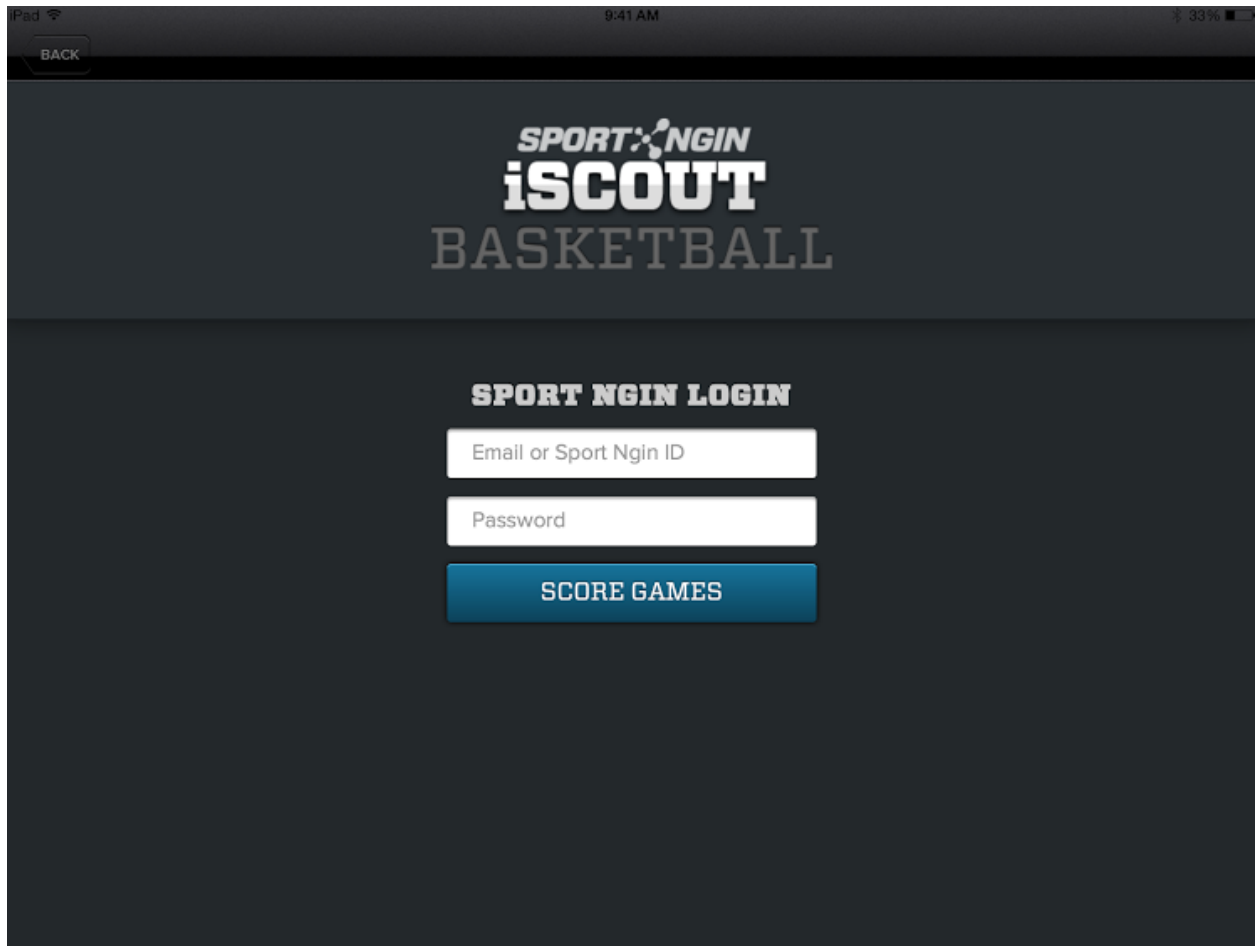

1. Tap on the “More” tab from the bottom menu

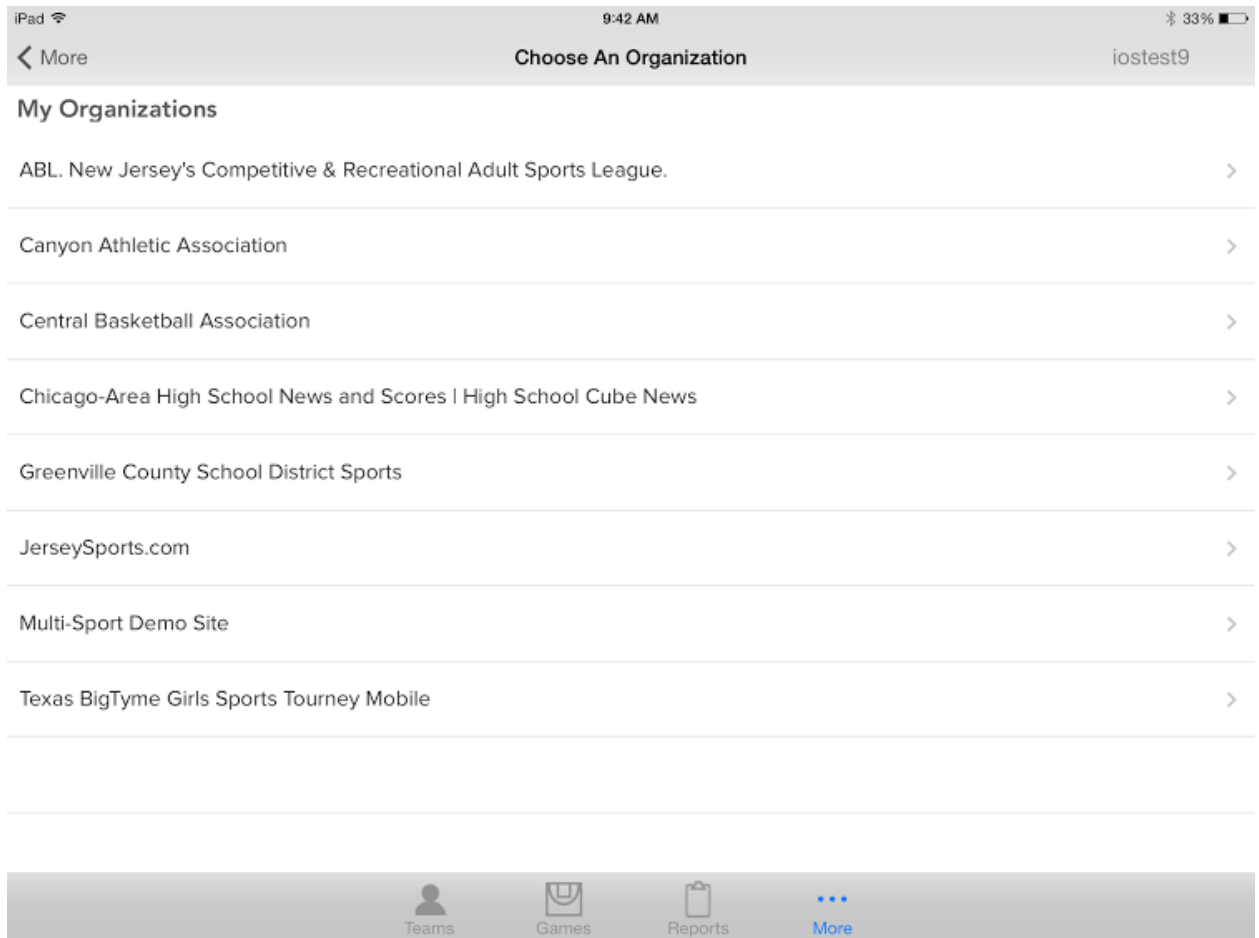

2. Tap on “Load Games” under the Sport Ngin header

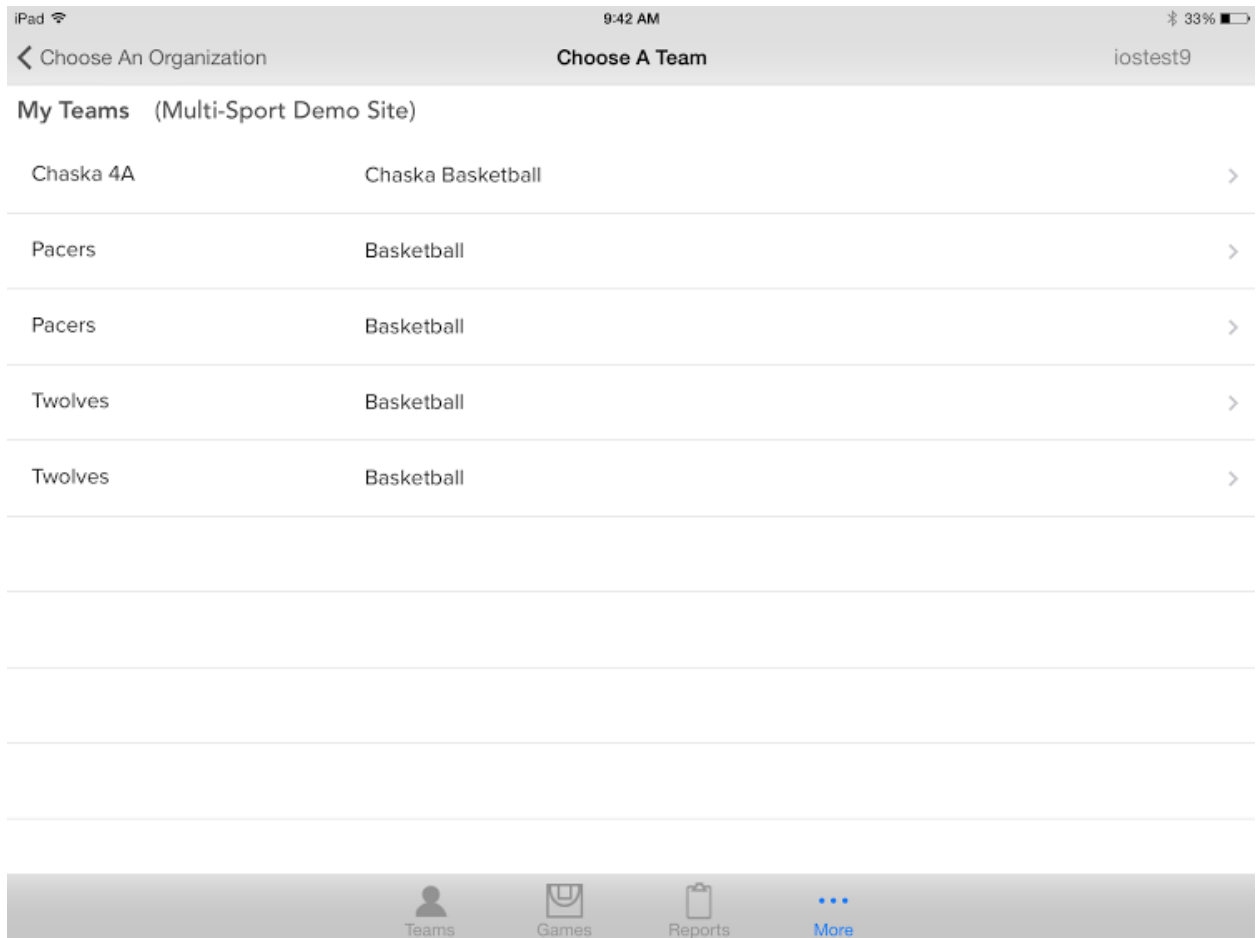

### 3. Login with your Sport Ngin Account

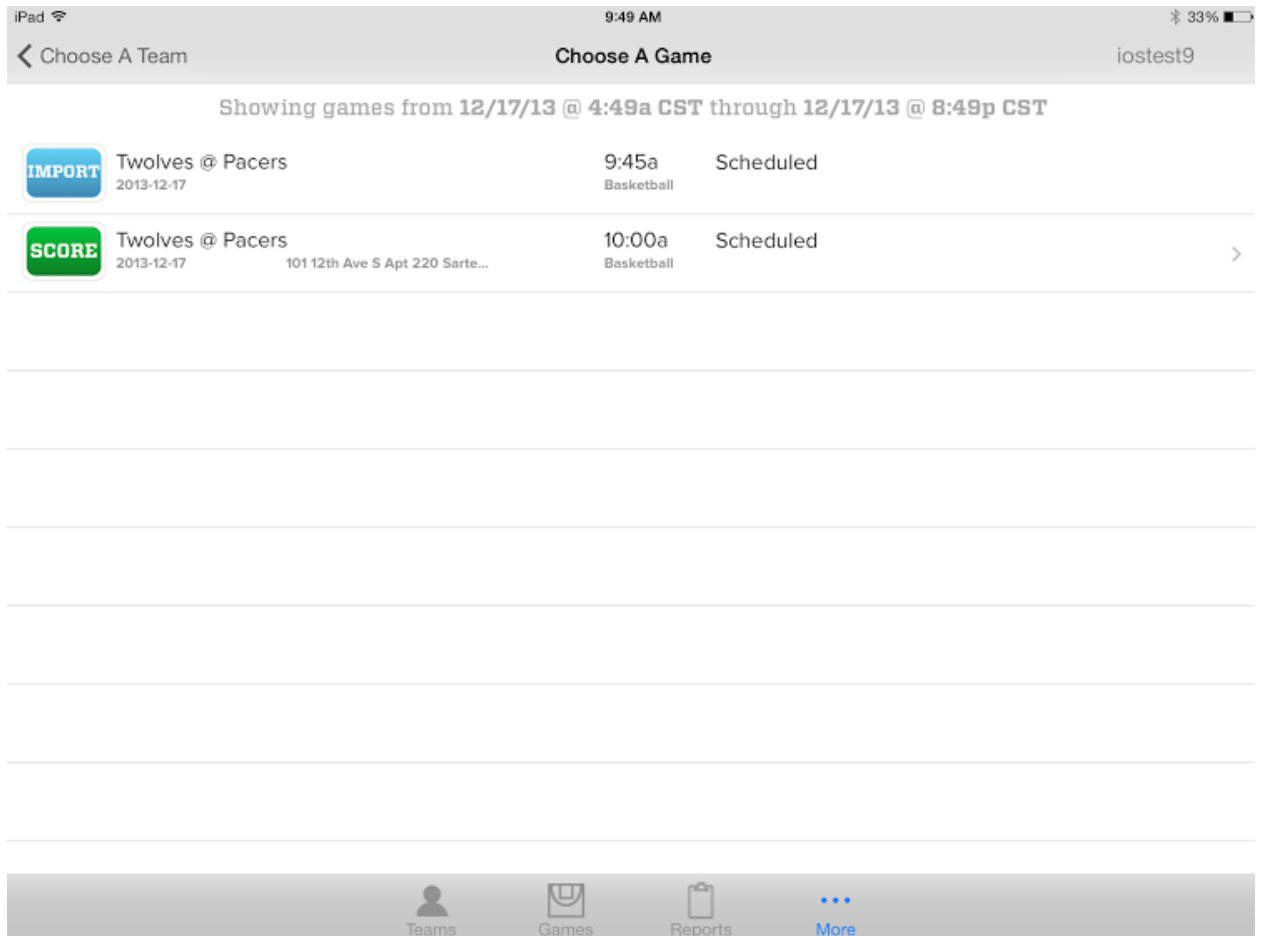

4. Once you login, you will be able to discover your organizations that you have admin access to.

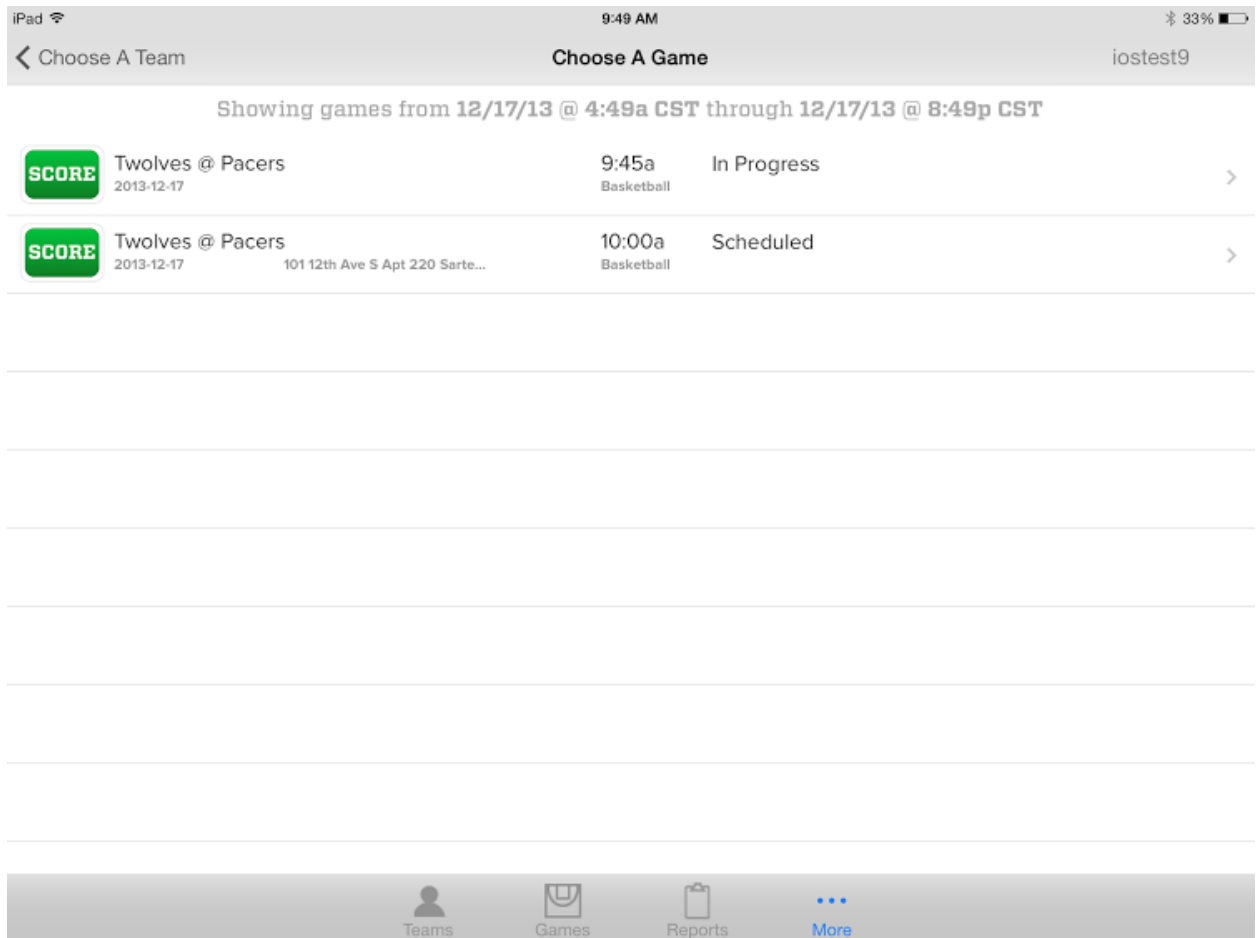

5. Choosing an org will give you all the teams under that org that you have access to score games

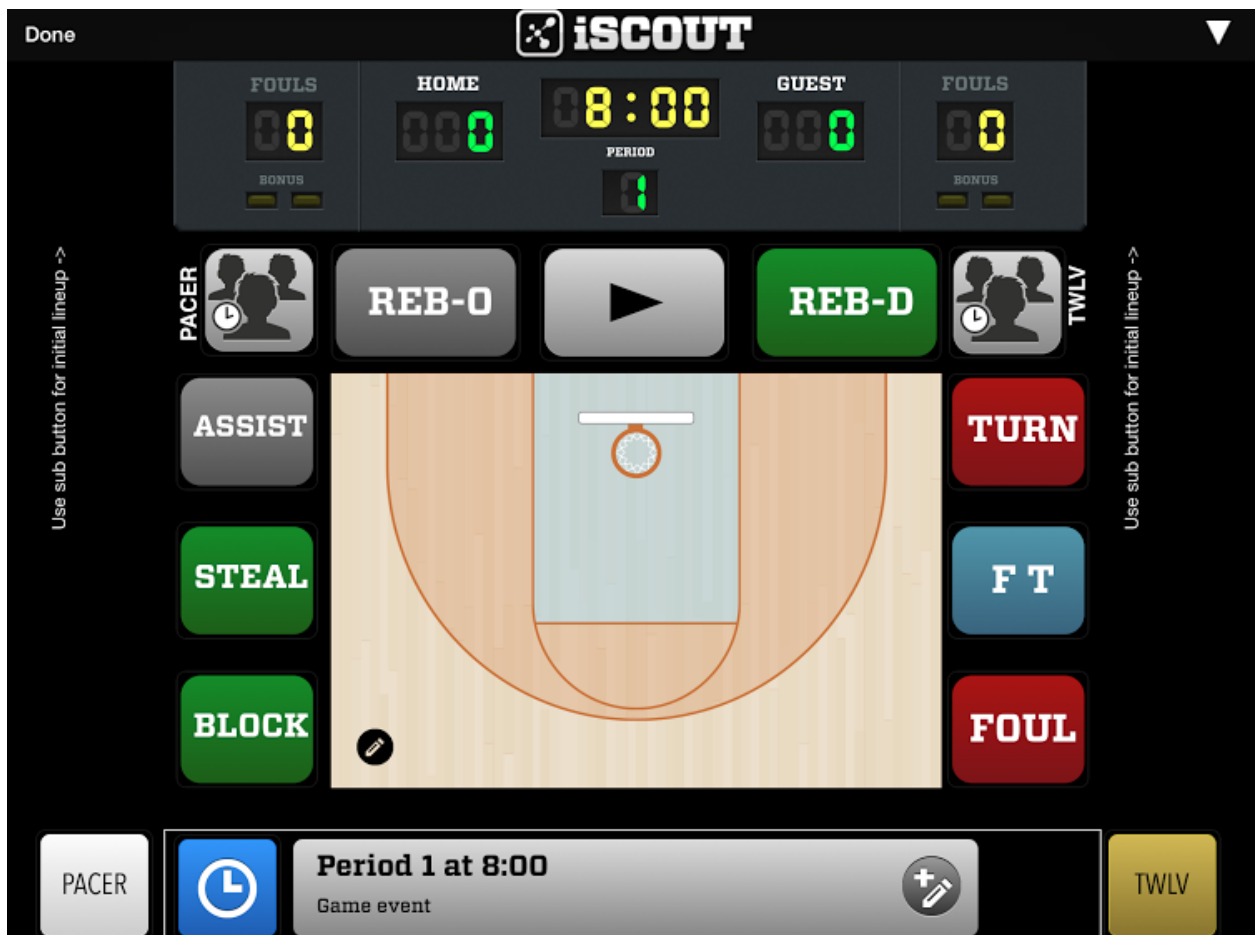

6. Once you pick a team, you will discover games for that team that you have access to score. Tapping on the import button will pull in the game format and rosters for the game.

7. Tap the “Score” button to start scoring the game

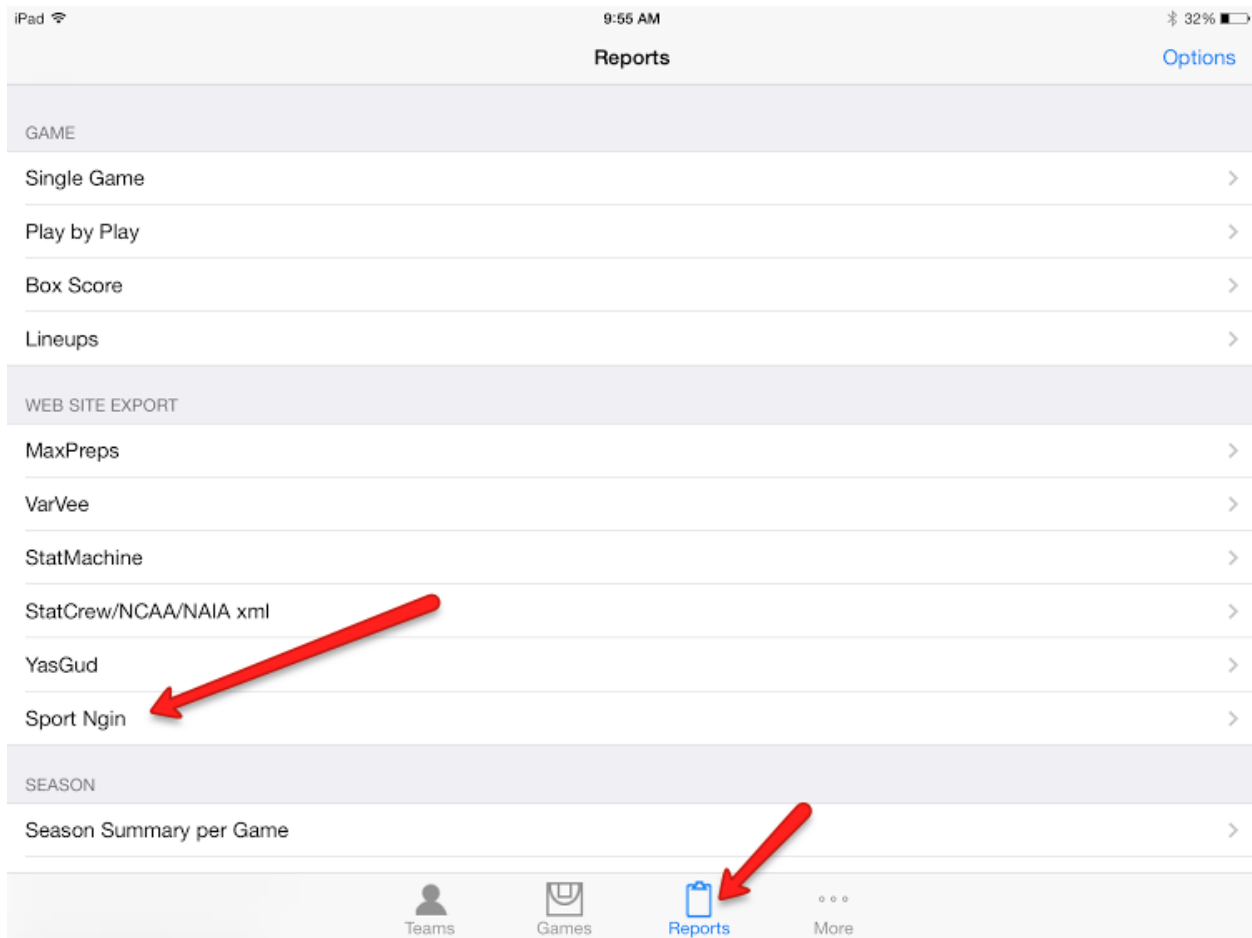

8. Once you tap the “Score” button, you will see the scoreboard with the court to select roster players and start entering plays

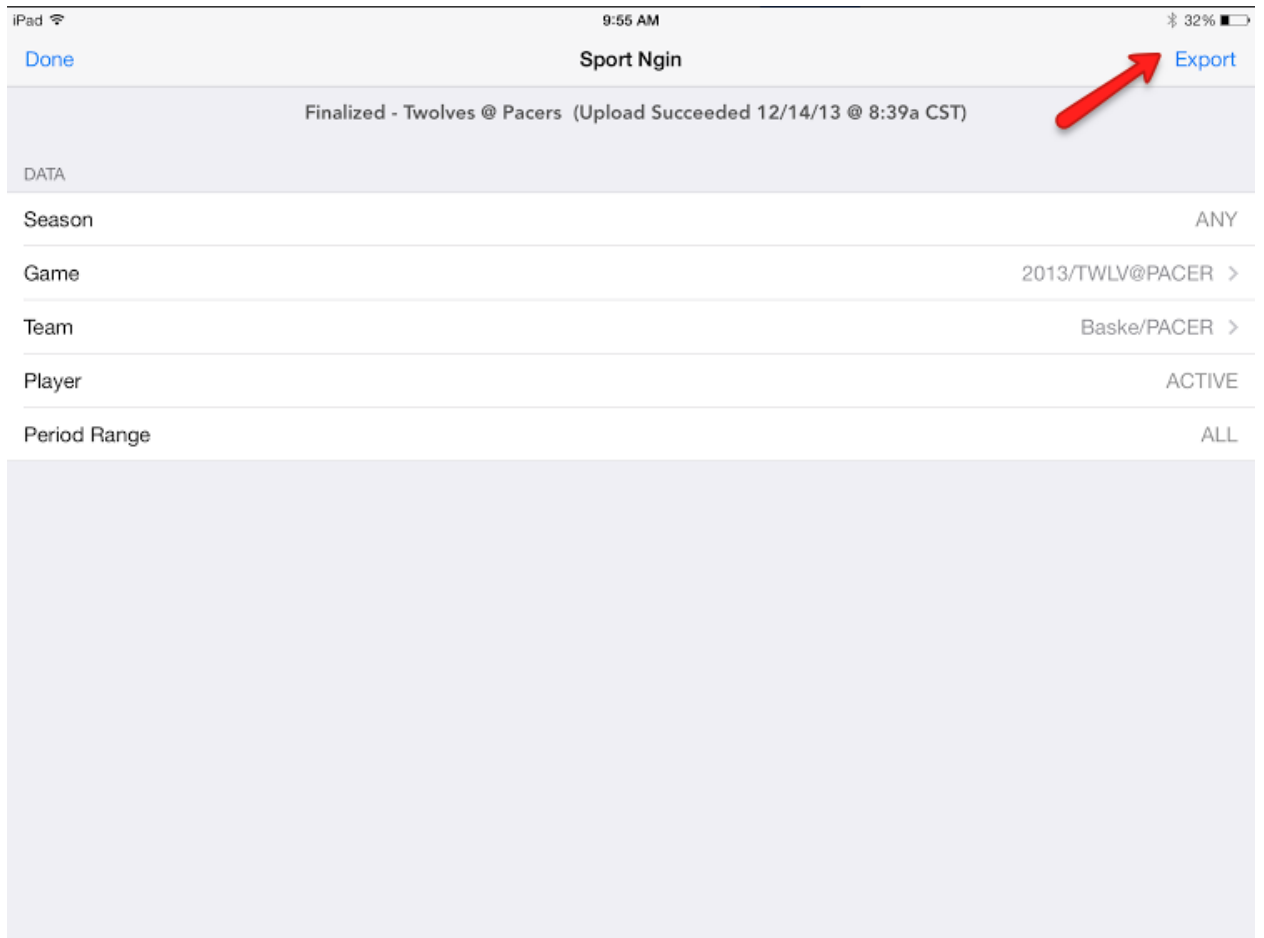

Syncing to the Sport Ngin Website:

1. You can upload stats to the website as often as you choose to. When you are ready to upload stats, click “Done” on the scoreboard.
2. Navigate to the “Reports” tab from the bottom menu. Tap on “Sport Ngin” from the Website Export Options list.

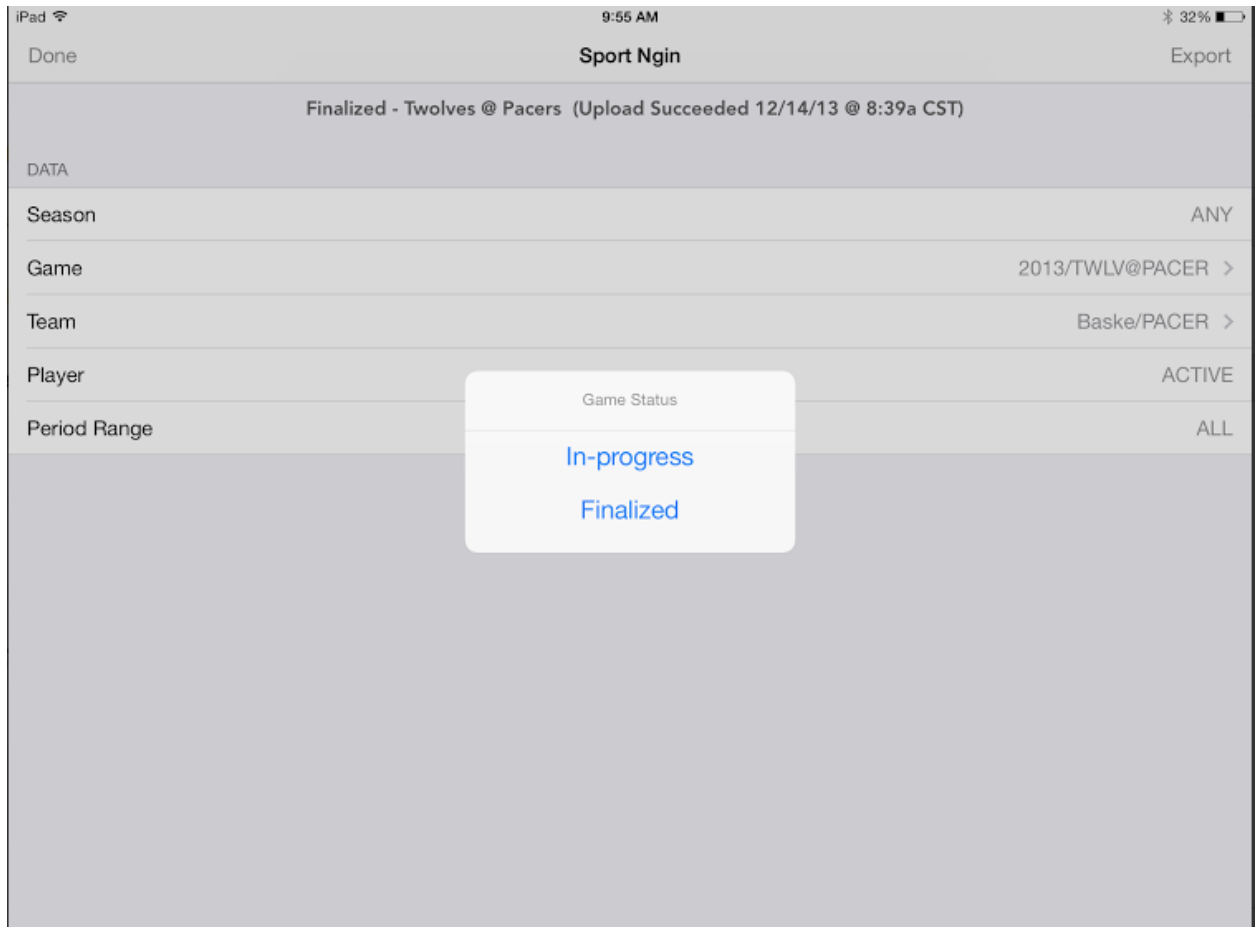

3. Tap on "Export" button at the top right corner.

4. You will be prompted to choose game status.

5. Note: you need to be connected to the internet to upload stats. Once stats are uploaded, you will see the "Processing Data" indicator disappear.
