## Passing and Shooting

We have all heard that passing is a lost art. The art is not lost, it is just not practiced or taught. Most players just throw the puck around. We will teach the player the fine points of passing and more importantly where to place their pass on their teammates stick in game situations. Just as important and rewarding is for the players to shoot well. Wrist shot, snap shot and backhands you cannot be an effective player if you have a weak shot. It's all in the execution.
