## Tinetti Performance Oriented Mobility Assessment

Health
POMA is a task- oriented test that measures an older adult's gait and balance abilities by an ordinal scale of 0 (most impairment) to 2 (independence). The assessments takes 10-15 minutes to complete.
(See: Tinetti ME. Performance-oriented assessment of mobility problems in elderly patients. JAGS 1986; 34: 119-126. Scoring description: PT Bulletin Feb. 10, 1993)

## Name:

## Location:

## Balance Assessment

Instructions: Subject is seated in a hard, armless chair. The following maneuvers are tested.

| Task |  | Description of Balance | Possible | Score |
| :---: | :---: | :---: | :---: | :---: |
| 1 | Sitting Balance | Leans or slides in chair | 0 |  |
|  |  | Steady, safe | 1 |  |
| 2 | Arises | Unable without help | 0 |  |
|  |  | Able, uses arms to help | 1 |  |
|  |  | Able without using arms | 2 |  |
| 3 | Attempts to arise | Unable without help | 0 |  |
|  |  | Able, requires > 1 attempt | 1 |  |
|  |  | Able to rise, 1 attempt | 2 |  |
| 4 | Immediate standing balance (first 5 seconds) | Unsteady (swaggers, moves feet, trunk sway) | 0 |  |
|  |  | Steady but uses walker or other support | 1 |  |
|  |  | Steady without walker or other support | 2 |  |
| 5 | Standing Balance | Unsteady | 0 |  |
|  |  | Steady but wide stance (medial heels > 4 inches apart) and uses cane or other support | 1 |  |
|  |  | Narrow stance without support | 2 |  |
| 6 | Nudged (subject at max position with feet as close together as possible, examiner pushes lightly on subject's sternum with palm of hand 3 times) | Begins to fall | 0 |  |
|  |  | Staggers, grabs, catches self | 1 |  |
|  |  | Steady | 2 |  |
| 7 | Eyes closed (at maximum position \#6) | Unsteady | 0 |  |
|  |  | Steady | 1 |  |
| 8 | Turning 360 degrees | Discontinuous steps | 0 |  |
|  |  | Continuous steps | 1 |  |
|  |  | Unsteady (grabs, swaggers) | 0 |  |
|  |  | Steady | 1 |  |
| 9 | Sitting Down | Unsafe (misjudged distance, falls into chair) | 0 |  |
|  |  | Uses arms or not a smooth motion | 1 |  |
|  |  | Safe, smooth motion | 2 |  |
| $\begin{aligned} & 0=\text { highest level of impairment } \\ & 2=\text { independent } \end{aligned}$ |  | Total Balance Score (out of 16) = |  |  |

## Gait Assessment

Instructions: Subject stands with examiner, walks down hallway or across the room, first at "usual" pace, then back at "rapid, but safe" pace (using usual walking aids).

| Task |  | Description of Gait | Possible | Score |
| :---: | :---: | :---: | :---: | :---: |
| 10 | Initiation of gait (immediately or after told to "go") | Any hesitancy or multiple attempts to start | 0 |  |
|  |  | No hesitancy | 1 |  |
| 11 | Step length and height | a. Right swing foot does not pass left stance foot with step | 0 |  |
|  |  | b. Right foot passes left stance foot | 1 |  |
|  |  | c. Right foot does not clear floor completely with step | 0 |  |
|  |  | d. Right foot completely clears floor | 1 |  |
|  |  | e. Left swing foot does not pass right stance foot with step | 0 |  |
|  |  | f. Left foot passes right stance foot | 1 |  |
|  |  | g. Left foot does not clear floor completely with step | 0 |  |
|  |  | h. Left foot completely clears floor | 1 |  |
| 12 | Step Symmetry | Right and left step length not equal (estimate) | 0 |  |
|  |  | Right and left step appear equal | 1 |  |
| 13 | Step Continuity | Stopping or discontinuity between steps | 0 |  |
|  |  | Steps appear continuous | 1 |  |
| 14 | Path (estimated in relation to floor tiles, 12-inch diameter; observe excursion of 1 foot over about 10 feet of the course). | Marked deviation | 0 |  |
|  |  | Mild/moderate deviation or uses walking aid | 1 |  |
|  |  | Straight without walking aid | 2 |  |
| 15 | Trunk |  | 0 |  |
|  |  |  |  |  |
|  |  | No sway but flexion of knees or back, or spreads arms out while walking | 1 |  |
|  |  | No sway, no flexion, no use of arms, and no use of walking aid | 2 |  |
| 16 | Walking Stance | Heels apart Heels almost touching while walking | $\begin{aligned} & 0 \\ & 1 \end{aligned}$ |  |
| 0 = highest level of impairment <br> 2 = independent |  | Total Gait Score (out of 12) = |  |  |
