

Sports Mouth Guard Waiver Form

Dear Athlete,

The risk of serious injury to the head and mouth is inherent in all contact sports. Dental professionals and athletic trainers urge all participants in contact sports to wear a properly fitted mouth guard when playing or practicing. This helps to reduce the degree of injury from traumatic blows to the head and/or mouth. Drs. Conlon & Thompson will be providing a complimentary mouth guard and it will be professionally fit to allow for proper protection.

For those athletes in active orthodontic treatment or mixed dentition (adult and baby teeth), the mouth guards may need to be refitted. The wearing of a mouth guard of any kind cannot prevent all head/mouth injuries from occurring, but a properly fitted mouth guard can help prevent most injuries. Each player must have this form signed by a parent/guardian allowing Drs. Conlon & Thompson and their clinical staff to provide and fit the mouth guard.

WAIVER FORM

I have read and understand the above information concerning mouth guards. By my signature below, I agree to allow Drs. Conlon & Thompson and their clinical staff to provide and fit the sports mouth guard for my child and waive any claim against Conlon & Thompson Orthodontics, Ltd.
