Schools showing interest: AIC, Adelphi, Assumptions, Becker College, Framingham State, Franklin Pierce, SCSU, to name a few of about 20 schools.

Offers: Albertus Magnus (New Haven, CT)

Why Albertus Magnus? - Jaqhawn fell in love with their offense. He said they run on every opportunity and he envisions himself fitting right in. On top of that he felt very comfortable with the atmosphere of the program and really likes the proximity to home. Jaqhawn also mentioned that the head coach took academics very seriously and would help Jaqhawn earn his degree.

Strengths: Jaqhawn considers himself a very strong rebounder and will contribute right away in that category. He also said that his driving ability will open up the floor for his teammates. He called himself a good playmaker.

Weaknesses: Jaqhawn acknowledged that he needs to get stronger physically and has to be more willing to shoot the basketball. He doesn't shoot it enough and is capable of hitting from the outside consistently.

Favorite Player: LeBron James

Favorite Team: N/A (Just loves basketball)

Toughest Opponent/Team: Everett High School (Everett, MA) 2014

Future Plans/Goals: Jaqhawn was brutally honest about his future pro basketball prospects. Although he would not shun from an opportunity, he stated to me that he will use basketball as a tool to help him carve out a career as a mechanical engineer (intended major).
