Schools showing interest: Caldwell College (NJ) (First year playing varsity, we suspect this list will grow)

Offers:

Strengths: John is a capable scorer off the bounce. He can score in a variety of ways and has shown the propensity to be an offensive force. Whether is off the dribble, slashing to the basket, or shooting from deep, scoring comes naturally for John. He also does a good job of absorbing contact and finishing with either hand. Has good quickness and gets into the paint drawing the defense to create plays for others.

Weaknesses: John can get turnover prone and makes bad decisions on his passes. It is something that he is aware of and will work hard during the offseason to rectify. John is only a junior and wants to improve in all areas of his game including his physical strength and decision making.

Favorite Player: John Wall

Favorite Team:

Toughest Opponent/Team: Feels as if everyone has been equally competitive.

Future Plans/Goals: John has a big goal of playing in the NBA one day. He is also open to having an overseas career if that is where fate should land him. Ultimately, he wants to play Basketball for a living so that he can help his family. He is focused on making sure they remain happy and struggle free. Great motivation.
