Points Distribution

Team Scoring

The top 3 race results from each team count toward the team's race score.

The race result are sparated by gender, so a team could have a 1st place male and a 1st place femail and they would each earn the same number of points for the team.

The team race scores are calculated using a racer's overall individual standings. For example, if the top 3 race results for a team are 1st place, 3rd place, and 6th place, the team score is 10 (1+3+6).

The team with the lowest race score then gets 1st place.

The point distribution for a team's series score is the same as the point distribution for individual series racers. For example, 1st place = 150 points, 2nd place = 142 points, 3rd place = 135 points, and so on.

A team's top 7 events count towards the team's series score. In the event of a tie, the tie breaker is the 8th best team result.

Race #	These are the point totals for:	Total Points For
