# Massachusetts Adaptive Hockey Program

The sport of sled hockey enables youth and adults to play hockey sitting down and is played by athletes with spinal cord injuries, spina bifida, lower limb amputations, diplegic cerebral palsy and other lower body impairments. Coaching and equipment are provided to participants in all sled hockey sessions.

All ability levels, ranging from first-timers to experienced players are welcome and will be coached in small groups by expert professionals and volunteers. Practices will include small games and will ensure age-appropriate instruction and play.

## DR. BERNARD R. & EDNA M. SEARS ADAPTIVE HOCKEY PROGRAM

### Massachusetts Adaptive Hockey Initiative

*The Dr. Bernard R. and Edna M. Sears Adaptive Hockey Program at the Spaulding Adaptive Sports Centers is dedicated to the growth of adaptive hockey in the Boston Metro area and Eastern Massachusetts for individuals of all abilities.*

The Sears Adaptive Hockey Program has made the Massachusetts Adaptive Hockey Initiative possible as a vehicle to initially expand the availability of introductory sled hockey opportunities in Eastern Massachusetts with an eye toward adult and youth league development in future years.

### COST

No cost to SASC participants in 2015 thanks to a generous gift from Dr. Bernard R. and Edna M. Sears.

### PARTICIPANTS

Space is limited. Please call to reserve your space in the program. Drop-ins are welcome, but we will not guarantee space without preregistration.

### SEE REVERSE FOR SCHEDULE AND LOCATIONS

To register or for questions, call 877-976-7272 or email Mark Priest at [mpriest1@partners.org](mailto:mpriest1@partners.org).
