

## **November 19th, 2014 PDC Meeting Minutes**

1. Review Tryout process- The PDC agreed that the tryouts were successful this season. There was one complaint to a PDC member about the placement of a player. The issue was handled and did not continue past the intervention from the PDC Member.

The groupings were changed from past tryout processes by ACE Aaron Stellmach to make both sessions on Sunday meaningful for all skaters. This was done without the approval of the whole PDC. This will be revisited next year by the PDC to make sure all members are aware of the method of groupings prior to tryout weekend.

2. Mite- Travel Team process for selection of players

The Mite travel team will be comprised of Age eligible Mites who will be squirts next season. They will play 4-6 full ice games and will have additional practice time for that team to prepare for the games

3. Early Season issues- Practices for all levels will reduce now that the High School teams are starting practice and games are starting for all teams. If coaches want more ice time they will need to communicate with other teams to share if possible and they must go through the ice schedulers when any changes are made to keep the calendar on the web site up to date. An email will be sent out to all Head coaches to make sure they understand the proper procedure.

4. Coaches clinic review- The PDC felt the Coaches clinic was very helpful for all involved. To keep the concept of hands on training the PDC discussed having some more OUTSIDE coaching resources brought in for next year. An ALL COACHES Mid –Season meeting will be held in lieu of the December PDC Meeting.
