

Key switch for field 22. Turn the key to "On" (not "Auto") or "Off" as required. There is no need to open the box door.

The key is in the referee room hanging on a hook just to the right inside the door.

After you turn the lights on or off, return the key to the referee room. Lonestars use the same key for fields 26-28. The key can be removed when the lights are on.

Lock box containing the switches for fields 23, 24, 25, and the baseball field (21).

The switches are toggle switches like the ones in a house. Each is clearly marked with the field number.
