

# HOCKEY by BAUER

## **Central Wisconsin's #1 Summer Hockey Development Program!**

- **Our 14<sup>th</sup> Season of Small Games & BIG Results** ●

### Proven Format

HbB's small game approach provides players with that missing link to the crucial development that "rat hockey" supplied in the past. Our loose structured games provide a combination of high paced skill and mind development. There will be no long lines & waiting. Our games are fast moving forcing players to develop their skills while making game like decisions. Unlike a one week camp we provide the needed repetition of skills. Coupled with our "Rat Hockey" sessions we give you 4 months of training & time off to enjoy your summer.

### Best Off-Ice Program

Our off-ice stickhandling program is the best available. Our challenging circuits guarantee your hands will improve. And our competitive physical challenges will improve your competitive drive.

### Our Staff

All of our head instructors are high school head or assistant coaches. It is their profession—they know how to teach the game. All are firm believers in the small game method. They are coaches—it is what they do best!

### Power of the Pond

Because at HbB we know that hockey should be —first & foremost—FUN. We still believe in the "Power of the Pond".
