# **CONCUSSION FACTS**

### SYMPTOMS REPORTED BY ATHLETE:

- · Headache or "pressure" in head
- · Nausea or vomiting
- · Balance problems or dizziness
- · Double or blurry vision
- · Sensitivity to light
- · Sensitivity to noise
- · Feeling sluggish, hazy, foggy, or groggy
- · Concentration or memory problems
- Confusion
- · Just not "feeling right" or is "feeling down"

# SIGNS OBSERVED BY COACHING STAFF:

- · Appears dazed or stunned
- · Is confused about assignment or position
- · Forgets an instruction
- · Is unsure of game, score, or opponent
- · Moves clumsily
- · Answers questions slowly
- Loses consciousness (even briefly)
- · Shows mood, behavior, or personality changes
- · Can't recall events prior to hit or fall
- · Can't recall events after hit or fall

#### IF YOU SUSPECT THAT AN ATHLETE HAS A CONCUSSION, YOU SHOULD TAKE THE FOLLOWING STEPS:

## HEADS UP ACTION PLAN:

- 1. Remove the athlete from play.
- 2. Keep the athlete out of play the day of the injury.
- 3. Obtain permission from an appropriate health care professional that states the athlete can return to play.
- 4. Keep the athlete out of play the day of the injury and until a health care professional, experienced in evaluating for concussion, says they are symptomfree and it's OK to return to play.
