For the upcoming travel hockey season; the **AHU Squire White Knight Hockey Team** has partnered with ClothingCycle for the entire season to support not only the team's fundraising efforts, but also promote environmental awareness to the players.

All you need to do is identify the unwanted items within your household or business that fall within the list attached (regardless of condition); and arrange a delivery or pickup. If you would like to support the AHU Squire White Knight Hockey Team in this effort, please contact me directly at <mailto:ahusquirtclothingcycle@gmail.com>.

ClothingCycle is a company that collects unwanted clothing/thrift items and sorts them into a few categories: (1) useable secondhand clothing that can be resold at an affordable price-point, (2) rags for commercial and industrial use, and (3) the remaining items are recycled into fibers to make everyday products like carpet padding, upholstery, and insulation.
