Just to confirm.
We are saying that electronic signatures are good on-
USA Hockey Participant Code of Conduct
MAHA STAR form
MAHA Concussion forms for players and coaches

NOT GOOD ON-
USA Hockey Consent To Treat

Correct?

Bob,

This is a great question. The way I feel about this and the way I would like it handled is that we accept electronic signatures on all the mentioned paperwork except the consent to treat form. I am not sure that hospitals would accept an electronic signature.

Thanks for the question and I will forward this to all the registrars so we are all following the same procedure.

Bob- I have received back several "electronic" signatures on the rostering documents including the concussion form and consent to treat.
Are these acceptable or do I need a "written" signature?
