Royals Hockey Families:

My name is Dr. Andy Snyder and I am pleased to have the opportunity to work with the boys hockey teams again this season.

For those unfamiliar with Chiropractic, we are specifically trained in musculoskeletal injury treatment and prevention. My aim is to bring an exceptional level of care to athletes at the high school level - something most Division I and professional teams also utilize. Chiropractic can assist in the increase of strength and coordination as well as reduce the likelihood of injuries through proper biomechanics and nerve function.

Many problems that affect athletes are not confined to the spine; because of this, I have additional training in the treatment of extremities (the arms and legs). My goal is to help reduce injuries and help injured players return as soon as possible. Being a former athlete, I understand how important it is to minimize time on the sidelines due to injuries. I will work closely with the coaches to place restrictions, if needed, or give the clearance to return to play - which saves parents an extra trip to the doctors.

I will be at the rink once a week to care for players.

This season I have two options:

- 1) I am offering a package deal similar to last season. For \$300 your player will receive treatment every week for the duration of the season (including the playoff run). In addition if your child needs more care they can come to my office as much as needed at no additional cost.
- 2) Your child can receive treatment when I am at the rink for \$25 each time on an as needed basis. This does not include any extra visits at my office but is great option if a problem arises.

*I will never charge a player for an exam/consultation. My job is to act in the player's best interest. In the event of an injury that is beyond my scope or expertise I will direct them to the appropriate physician.

If you have any questions, concerns, or would just like to meet please don't hesitate to contact me at (651) 340-2185 or DrAndrewSnyder@gmail.com

If this is something you **MAY** be interested in please fill out the consent form and return it to the coaches so I have it on file.

Here's to a great season!

Dr. Andy Snyder D.C.
