

## **OLIVE PONY BASEBALL MANAGER SELECTION POLICY**

- Managers will submit an application to manage a team to OPB.
- Applications will be accepted at any time prior to the start of the season up until the designated cut-off date posted on the website.
- OPB board will review each application and make decision on these applications. Some approved managers will be notified prior to registration close that they have a team under the assumption that player registration numbers hit projections. No manager slots are official until player registration is complete. All remaining manager slots will be awarded and notified within a few days of registration close.
