Global Premier Soccer: Rain Policy

Global Premier Soccer takes the safety of our players and participants with extreme seriousness. Although we believe that on the most part sessions or games can be continued in rainy conditions there are some exceptions to that belief.

Rain Policy

Applies to all GPS programs:

1. Heavy rain or rainy conditions that create a dangerous environment for any participant will be deemed to be unsafe for continuation of any practice or session.
2. GPS will do their utmost to provide a back-up facility in the event a session is cancelled due to poor weather that is suitable for indoor soccer. However please note that this is not always possible.
3. If we are not able to provide an indoor space for the continuation of the session, the organizing staff member will seek a safety plan outlining shelter or plan where there is no shelter.
Where applicable, the program will use the following shelter:
Name:
Address:
Contact Person:
Contact Number:
3. If the rain is deemed to heavy to continue in, the following procedures should be adhered to:
 - a. Suspend play and direct participants to go to a shelter, a building normally occupied by the public or if a building is unavailable, participants should go inside a vehicle with a solid metal top (e.g. bus, van, or car).
 - b. Play will be continued once the rain eases off or is deemed safe to continue in
 - c. In the event that the rain will prevent any future play, all emergency contacts will be contacted
4. In the event that the weather forecasts for heavy rain or dangerous weather GPS hold the right to postpone/cancel any program whereby the organizers feel starting the session would put the participants at harm.
5. Please note that in many cases facility providers will often close fields for play if there is heavy rain or there has been heavy rain. In cases like this our 'No Refund Policy' is still in effect. If the fields are closed by the provider then we will not provide a credit to your GPS account.
6. In the event GPS cancel due to weather the 'No Refund Policy' is still in effect. Dependent on the case, GPS may offer a credit effective on your Got Soccer account as an credit for any future GPS programs for the time lost due to the weather.
