

2016-17 Norman Midget Female AAA WILD

As the season is quickly approaching, 5 weeks away from hitting the ice, the Norman Midget Female AAA Wild would like to provide information to those prospective players and parents.

Our team will play approximately 50 games (28 league games in the Manitoba Female Midget AAA Hockey League, 6 exhibition games and 2-3 tournaments). Our team will travel weekends to attend league and tournament games between September and March. The typically travel schedule will be to travel on Fridays to play early on Friday evenings, then a Saturday afternoon or evening game and play on Sunday with the road game scheduled to start no later than noon. During our travel weekends, there may be times a practice will be included in our weekend.

We will play our home game weekends in the communities of Thompson, The Pas, Norway House, Cross Lake and Flin Flon. This may change depending on ice availability and scheduling.

Tryout Process

The coaching staff and evaluators will begin the evaluation process through August and September. During this time there may be players released back to their club teams. The goal of having the final roster firmed prior to the Central Plains Capital's Showcase Tournament on September 23rd weekend in Portage la Prairie.

Bantam aged players are eligible to try out and play with the Norman Midget team full time. As with every season, arrangements will be worked out the Bantam AAA team to reduce conflicts.

A tentative schedule for August and September is will be provided in the coming weeks which will include additional tryout weekends, practices, exhibition games, etc. Presently we are waiting for confirmation on the availability of ice in our communities. As well, once the league scheduling meeting is held in August, a detail season schedule will be shared. This will be provided during the August 26th weekend.
