

# How to: Update scores with Quick Score

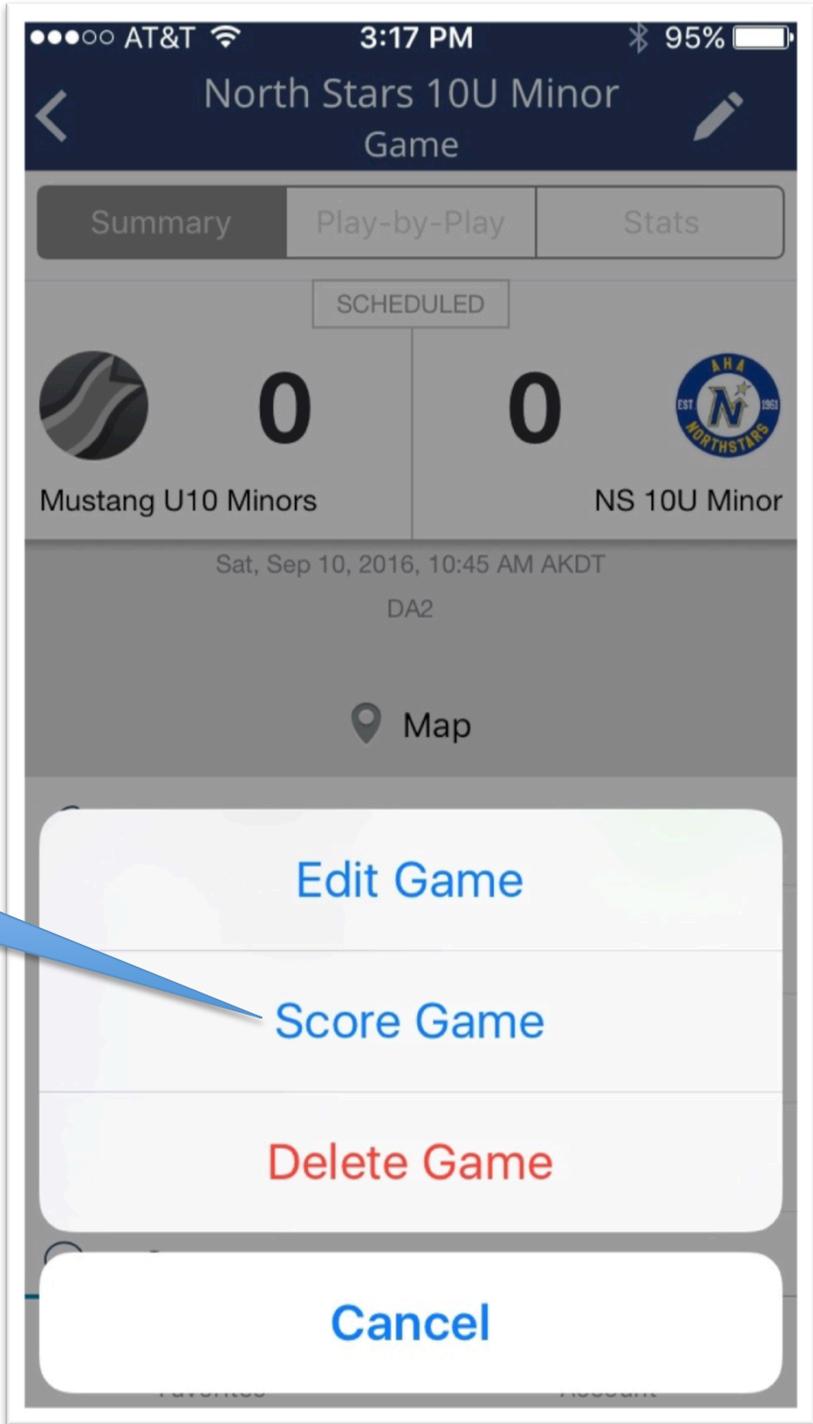

Using SportsEngine Mobile App.

September 5, 2016

Note: you must have edit permissions to update scores in the mobile app.

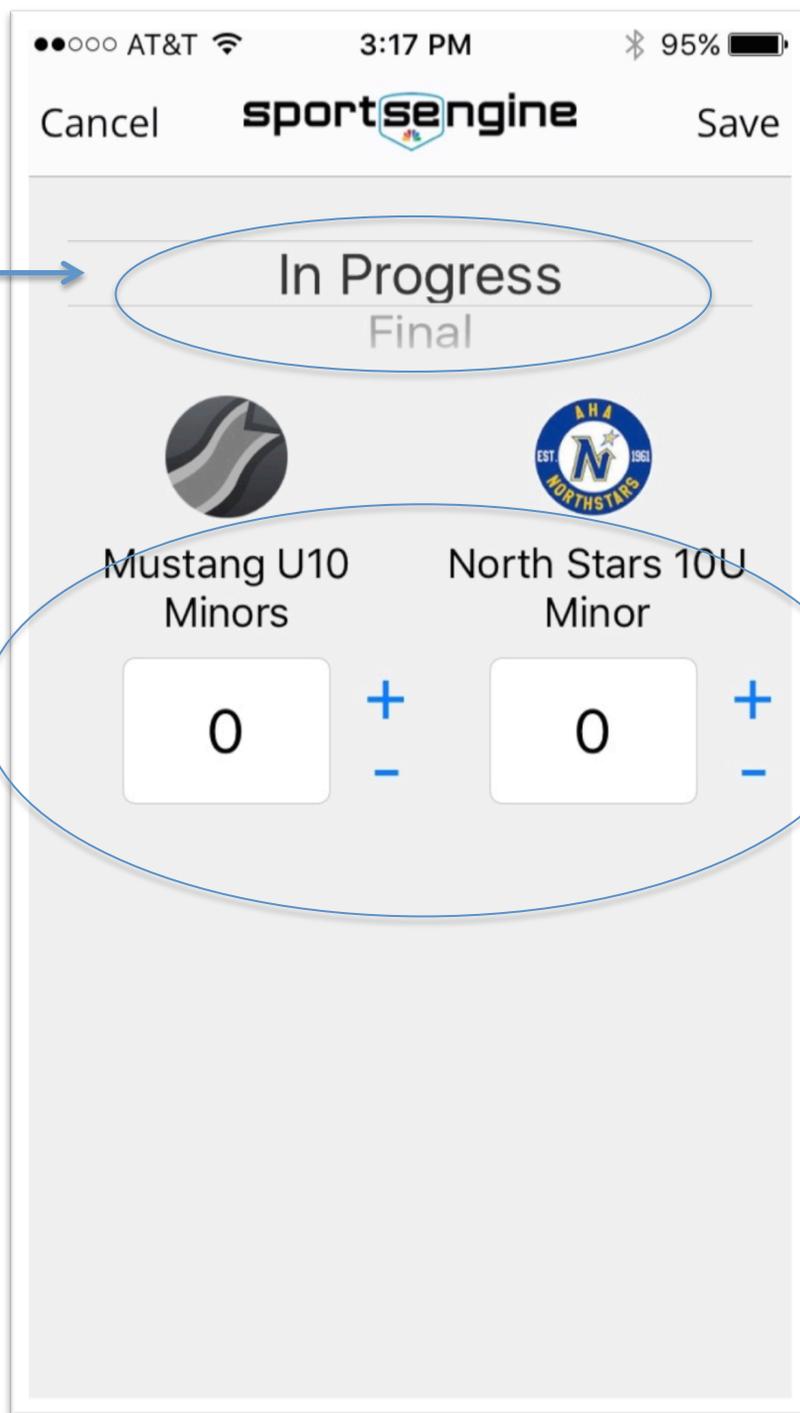

Click on the edit button

Click Score Game

Once game is over... switch to Final and an automatic tweet will be sent to the AHA Scores Twiter account. It will also be displayed on the website.

Click + and - to edit scores.

## CONNECT WITH AHA

AHA is a large hockey family with diverse interests from recreational hockey to nationally competitive programs. Stay up to date on the latest news, scores and events through AHA's many social connections.

AHA-FACEBOOK

AHA SCORES

AHA - TWITTER

AHA - INSTAGRAM

For those that don't use twitter, all scores can be view here.

Tweets by @ahascores

**AHA Game Results** @ahascores

Testing...tweets should feed game results directly to AHA website

12m

In order for scores to be recorded, the game must be changed from “In-Progress” to “Final”. While it isn’t mandatory to do this for your team, a lot of people like to keep up with how the other AHA teams are doing. If your not up for doing it, you may ask a parent from your team to see if they are interested. If you want to give someone edit permissions, just let me know their name and sportsengine user name.
