## IIHF TOURNAMENT FORMAT

### Three-Point System for Preliminary Round

- Three points shall be awarded to the winning team at the conclusion of regulation.
- One point will be awarded to both teams at the conclusion of regulation if the game is tied.
- An additional point shall be awarded to the team winning the game in either the overtime period or the Game-Winning Shots procedure.

### Overtime Procedures

- If a preliminary-round game is tied after three periods, a five-minute four-on-four sudden-death overtime period shall be played immediately after an intermission of three minutes. The teams will defend the same goals as in the third period.
- If a playoff, quarterfinal, semifinal or bronze-medal game is tied after three periods, a 10-minute four-on-four sudden-death overtime period shall be played immediately after an intermission of three minutes. The teams will defend the same goals as in the third period.
- If the gold-medal game is tied after three periods, a 20-minute four-on-four sudden-death overtime will start immediately after a 15-minute intermission during which time the ice will be cleaned. The teams will change ends.
- If no goal is scored in the overtime period of any game, the Game-Winning Shots procedure will apply.

### Game-Winning Shots Procedure

Shots will be taken at both ends of the ice surface. Three players from each team will take shots alternately until a decisive goal is scored. If the score is still tied after three shots by each team, the procedure will continue with a tiebreak sudden-death shootout by one player from each team. The teams may use the same player or new players for each shot in the tiebreak shootout, until the outcome is decided.

## THIS IS USA HOCKEY

**Leadership:** Ron DeGregorio, President | Dave Ogrea, Executive Director

**National Headquarters:** Colorado Springs, Colo.

**Website:** usahockey.com

**Membership:** Nearly 600,000 players, coaches, officials and fans of the game

USA Hockey provides the foundation for the sport of ice hockey in America; helps young people become leaders, even Olympic heroes; and connects the game at every level while promoting a lifelong love of the sport.

USA Hockey's primary emphasis is on the support and development of grassroots hockey programs. In January 2009, the organization launched the American Development Model, which - for the first time ever - provides associations nationwide with a blueprint for optimal athlete development. Always a leader in safety, USA Hockey furthered the enhancement of those efforts by advancing the USA Hockey SafeSport Program in June 2012.

While youth hockey is a main focus, USA Hockey also has vibrant junior and adult hockey programs that provide opportunities for players of all ability levels. The organization also supports a growing disabled hockey program.

Beyond serving those who play the game at the amateur level, USA Hockey has certification programs for coaches and officials to ensure education standards are met that coincide with the level of play. In September 2011, USA Hockey became the first youth sports organization in the U.S. to offer its coaches online, age-specific coaching education modules. Furthermore, a large focus is put on parent education with equipment needs, rules of the game and parental roles in youth sports among common topics.

Members of the organization are entitled to many benefits, including a subscription to *USA Hockey Magazine*, the most widely circulated hockey publication in the world; excess accident, general liability and catastrophic insurance coverage; access to USAHockey.com; and opportunities to participate in USA Hockey National Championships, as well as player development camps.

As the National Governing Body for the sport of ice hockey in the United States, USA Hockey is the official representative to the

United States Olympic Committee and the International Ice Hockey Federation. In this role, USA Hockey is responsible for organizing and training men's and women's teams for international tournaments, including the IIHF World Championships and the Olympic and Paralympic Winter Games. Closer to home, USA Hockey works closely with the National Hockey League and the National Collegiate Athletic Association on matters of mutual interest.

USA Hockey is divided into 12 geographical districts throughout the United States. Each district has a registrar to register teams; a referee-in-chief to register officials and organize clinics; a coach-in-chief to administer education programs for coaches; a risk manager to oversee liability and safety programs; and a skill development program administrator to facilitate learn-to-play programs for youth players and their parents.

## THIS IS USA HOCKEY'S NATIONAL TEAM DEVELOPMENT PROGRAM

**Founded:** 1996

**Location:** Ann Arbor, Mich.

**Website:** [usahockey.com/usantdp](http://usahockey.com/usantdp)

**NHL Draft Impact:** 211 players drafted including 45 first-round picks; Three players were selected first overall: Patrick Kane (Chicago, 2007), Erik Johnson (St. Louis, 2006) and Rick DiPietro (NY Islanders, 2000)

In 1996, USA Hockey launched a revolutionary new initiative called the National Team Development Program, based in Ann Arbor, Mich. In its 16th season of play in 2012-13, the goal of this full-time development program is to prepare student-athletes under the age of 18 for participation on U.S. National Teams and success in their future hockey careers. Its efforts focus not only on high-caliber participation on the ice, but creating well-rounded individuals off the ice.

The program is composed of two squads - the U.S. National Under-18 and Under-17 Teams. The Under-17 Team competes in the United States Hockey League and also participates in three international events annually. The U.S. National Under-18 Team's schedule includes games against NCAA Division I and III opponents, contests vs. USHL teams, as well as competition in three international tournaments.

The Ann Arbor Ice Cube, a first-class facility consisting of three ice sheets, locker rooms, offices, a training area and weight room is home to the NTDP. Unlike other competitive athletic teams, the success of the NTDP is not gauged on wins and losses. Instead, the focus is on the development of skills and acquiring experience against older competitors.

"Playing for your country is one of the greatest things any athlete can do," said National Hockey League superstar Ryan Kesler. "The NTDP's on- and off-ice programs built the foundation I needed to become the player I am today."

### WHAT THE PROGRAM HAS MEANT

In evaluating how the NTDP has impacted hockey in the United States, consider:

- The U.S. has won the gold medal seven times at the IIHF Men's World Under-18 Championship (2002, 2005-06, 2009-12), with each team comprised primarily of NTDP players.
- The U.S., with a team comprised largely of NTDP players, captured its first-ever gold medal at the IIHF World Junior Championship in 2004. In 2010, Team USA earned its second gold medal and followed that success with a bronze-medal finish in 2011, the first time in tournament history that the U.S. won consecutive medals.
- In 2011-12, more than 60 NTDP alumni played at least one game in the NHL.

Every day, millions of lives are shaped by a puck  
and a little open ice.

## **RON DeGREGORIO**

**PRESIDENT**

Ron DeGregorio's leadership is a major reason why USA Hockey has evolved into arguably the leading hockey federation in the world today.

From championing the USA Hockey SafeSport Program in 2012 to helping fuel national support for passage of the organization's Progressive Checking Skill Development Program in 2011, DeGregorio's commitment to advancing the sport is on-going.

His ingenuity is evident throughout the organization, but perhaps nothing as visible as USA Hockey's National Team Development Program. A lightning rod for criticism in the U.S. when it was established in 1996, the NTDP has evolved into a revered program and has significantly influenced U.S. success in international competition.

DeGregorio, who continues to play hockey today, was elected president of USA Hockey on June 14, 2003, and unanimously re-elected to his fourth term on June 10, 2012.

His first appointment with USA Hockey came in 1973 when he was named registrar for the New England District. As registrar, DeGregorio oversaw the reorganization of the district into several smaller, more manageable affiliates. He was also the first registrar to appoint associate registrars, which helped increase USA Hockey's efficiency and visibility at the local level.

DeGregorio was first elected to the USA Hockey Board of Directors in 1975 and was the organization's first vice president of youth hockey. In the 1980s, he served as treasurer of USA Hockey. In 1995, he was elected as a vice president and the international council chairperson, positions he held until being named president.

He has represented the USA at countless events during his tenure with USA Hockey. His first official role came as team leader of Team East at the 1979 United States Olympic Festival, from which the 1980 "Miracle On Ice" U.S. Olympic Ice Hockey Team was chosen.

DeGregorio also served as team leader for the 1994 U.S. Olympic Ice Hockey Team that competed in Lillehammer, Norway. DeGregorio has represented the USA at the 1998, 2002, 2006 and 2010 Olympic Winter Games and at numerous International Ice Hockey Federation World Junior Championships, IIHF Men's World Championships and IIHF Women's World Championships. He has also been a member of the United States delegation at IIHF meetings and conferences as international council chairperson.

The former Middlebury (Vt.) College goaltender is known throughout Massachusetts as the originator of the "Mini One-on-One," a youth hockey competition that is broadcast through the Boston Bruins' television network. DeGregorio was distinguished with the National Hockey League's Lester Patrick Trophy in 2002 in recognition of his outstanding service to ice hockey in the United States.

DeGregorio served on the Board of Directors of the United States Olympic Committee's Pan-American and Olympic Captive Insurance Program and was also involved in professional hockey as one of three principal owners of the former American Hockey League Kentucky Thoroughblades.

DeGregorio is president of the PenFacs Group, an investment and insurance firm specializing in the design, administration and funding of executive benefit plans. He has four grown children and three grandchildren and resides in Salem, N.H., with his wife Susan.

# SERIOUS ABOUT YOUR GAME?

## What if you could...

- Cover an extra 2 feet when crossing the neutral zone •
- Take corners at least 5% faster •
- Shave 0.3 seconds off your time in a 110m performance test •

## CONTOURS MATTER!

**Average results for players after having their skates contoured \***

\* Results of a 2 year study conducted by: Kelly Lockwood, Ph.D.  
The Skating Lab @ Brock University

**BLADEMASTER**  
THE CHOICE OF PROFESSIONALS

**If hockey** was only a game of speed, a very long single contour would enhance speed. But then it would be called speed skating.

**If hockey** was only a game of turns and pivots, a very short single contour would enhance agility. But then it would be called figure skating.

**Hockey Requires the best of both - and only Blademaster's Custom Radius Mark 6 System can achieve this!**

Blades are manufactured with a single contour. They cannot possibly match the demands of today's game, individual preferences or produce performance advantages. Contouring the skate blade enables the player to better realize their full skating potential.

Talk to your local Blademaster Custom Radius specialist for more information on the revolutionary new Mark 6 system, or visit [www.blademaster.com](http://www.blademaster.com).
