Imagine there is a bank account that credits your account each morning with \$86,400. It carries over no balance from day to day.

Every evening the bank deletes whatever part of the balance you failed to use during the day. What would you do? Draw out every cent, of course!

Each of us has such a bank. It's name is TIME.

Every morning, it credits you with 86400 seconds.

What is the plan for your 86400 today?

### ***A story about 4 people named Everybody, Somebody, Anybody, and Nobody.***

*Whose Job is It? This is a story about four people named Everybody, Somebody, Anybody, and Nobody. There was an important job to be done and Everybody was asked to do it. Everybody was sure Somebody would do it. Anybody could have done it, but Nobody did it. Somebody got angry about that, because it was Everybody's job. Everybody thought Anybody could do it but Nobody realized that Everybody wouldn't do it. It ended up that Everybody blamed Somebody when Nobody did what Anybody could have done.*
