

Now that you have registered in “2018 Email/Text Messaging List”, please double check the contact info listed for your son on your SportsEngine account.

Go to the homepage of crimsonsoccer.org

Click on log in or your username in the upper left hand corner of the page.

Click on Household and then your player.

Under contact info: If you want your player to receive emails and texts directly; make sure the contact information is his email and phone number. Highly recommend you do this!

Go to Linked Accounts: Make sure any parent who wants to receive both email and text messages has an account linked. Only one phone number per linked account is allowed. So both Mom and Dad need to have their own profile, or just know that text messages will only go to the parent’s number listed on the parent profile.

On Linked Accounts - Click Add: to add any other parent, grandparent or babysitter that would want to receive both texts and emails (ex. for cancellation of practice or game etc).

Or to just add an extra email address: Go to player’s contact info and add email addresses.

Last but not least, go to “Account Settings”

In Notification Settings, find Maple Grove HS Boys Soccer, click on “Show Profiles” then check all of the email and text boxes that you would like to receive messages at.
