LAGUNA HILLS, CA, May 12, 2017/OneHockey/ OneHockey, your source for the industry's most entertaining youth hockey tournaments, and the DuPage County Convention & Visitors Bureau are partnering to bring the renowned OneHockey Experience to Chicagoland for an amazing four weekends during the 2017-18 season.

Beginning on Thanksgiving weekend, OneHockey's acclaimed on-ice competition and unmatched in-game entertainment will be on full display at the Edge Ice Arena in Bensenville, Illinois, the twin-sheet home of the NCAA Division I Robert Morris University men's and women's hockey programs. Three other five-game guaranteed tournaments will also highlight the OneHockey calendar next season at the 3,000-seat, multi-purpose facility, including during the popular Martin Luther King and Presidents Day holiday weekends.

"This partnership is huge for us," says Sebastien Fortier, OneHockey chief executive officer. "We have a huge following from hundreds of Illinois teams and many that already attend our Minnesota Gone Wild tournament every MLK weekend. Now some of them can experience a OneHockey event locally as well."

OneHockey will also host an off-season tourney April 28-30, 2018, at the Edge Ice Arena, formerly the official training facility of the NHL's Chicago Blackhawks and home to the USHL's Chicago Steel.

"With our new Central States Hockey League tournament in Illinois, OneHockey needs no more introduction to the Midwest youth hockey teams," says Fortier, referring to the popular annual league showcase event scheduled for Chicago this September that OneHockey has recently been selected to host. "But without the tremendous support from the DuPage County Visitors Bureau, these four additional events would not be possible."

Located 20 miles west of Chicago, DuPage County offers visiting hockey families several fascinating cultural and historical exhibits, scenic open spaces and rousing performing arts facilities. Some of the attraction found within the 39-community county include the DuPage County Trail System for cyclists, hikers, runners and equestrian riders, the Medieval Times Dinner & Tournament festival and LEGOLAND® Discovery Center.

"DuPage County is a perfect partner for OneHockey," Fortier says, "and a perfect place for our families to play and explore."

A OneHockey event is anything but your everyday tournament at your neighborhood ice rink. From its festive music and playful mascot streaming throughout each venue to its bustling lobby featuring a multitude of hockey vendors as well as its popular red-carpet social media interviews, all cumulating with its trademark championship ceremony – complete with a OneHockey Cup raising and non-alcoholic champagne celebration – the OneHockey Experience cannot be equaled.

For more information on the four in Bensenville, Illinois, events and the rest of the 25-plus year-round OneHockey tournaments, log on to www.onehockey.com. To find out more about the distinctive sights and sounds of DuPage County, visit www.discoverdupage.com.
