## **PUBLICITY & AREA NEWSPAPERS/TV**

**Media Reports:** When Cedarburg High School is the HOST school for a varsity athletic contest it is the responsibility of the head coach to contact the media and report contest results. At the minimum, results/scores must be reported to the News Graphic and Milwaukee Journal Sentinel. This is an expectation of this athletic department. This can also be found in the North Shore Conference By-Laws which means that all conference schools are supposed to report results after all contests. If you attend a tournament or meet that is not part of our conference schedule you will need to contact the News Graphic with information about your team/individual performance. They have access to our athletic schedules but that does not guarantee that they will attend the event. If concerns arise about the lack of our coverage by our local paper please let me know so additional contact can be made with the paper.

## **CHS DAILY ANNOUNCEMENTS**

Recognizing the accomplishments of CHS athletes within our school setting is important as well. If a varsity head coach would like to have their athletes/team included in the daily announcements, they must do the following: Type up any highlights/information, just as they would like it read and then send that information to Robin Vandinter at [rvandinter@cedarburg.k12.wi.us](mailto:rvandinter@cedarburg.k12.wi.us). This must be done prior to 8:30am on the day you want to have announcement read. No announcement will be read more than 3 consecutive days.

Robin will then put the information in the daily announcements. This process is similar to calling the News Graphic and Journal Sentinel after home contests and is for varsity athletes/teams only.

## **CHS WEBSITE**

The athletic department has an athletic only website which gives coaches the opportunity to share information about their sport. Each head coach is expected to keep up a minimum amount of information on their individual page (calendar, roster etc.) but there are a great number of options that can be used for your program.
