 Iverson Robinson—Lakeland Community College

Our staff, administrators and club directors are so proud of these young men and women. We look forward to watching all of you playing at the next level

Croatia Juniors Directors

Croatia Cleveland Directors and Administrative Staff would like to provide you with some up to date information regarding the upcoming CASA and GLA seasons. Croatia Juniors staff has been closely monitoring the Center for Disease Control and World Health Organization's statements regarding the novel coronavirus (COVID-19) cases and following the recommended guidelines from these agencies and local health departments. In addition to this, we have been closely monitoring the recommendations from both local, state and regional agencies, on how we should proceed with our upcoming season. Given the latest emergency declaration from our local officials and the official order coming from Ohio Governor, Mike DeWine, we are following their direction and will postpone our spring season for at least three weeks. Furthermore, local schools have been shut down which has resulted in facility closures. Our number one priority is for the health of our players and direct families. As we get more information from US Soccer and our local and regional league we will be passing that information along.

Croatia Juniors Shine in Local Tournaments

Congrats to all the boys and girls who participated in the Erie Premier Sports and the ISC Indoor Presidents Days Tournaments. Congratulations to all of our teams for showing well in the events and bringing home some hardware to boot. Our 2003-04 girls team were runners-up at the prestigious Internationals Soccer Club Indoor All Star Classic. We would like to congratulate all the girls on a fine performance. Congratulations to our 2004 Boys CASA group for also putting in a performance at the MSA President's Day Tournament, earning a runner-up trophy. Job well done kids!!!!

Ways To Stay Fit and Sharp

The coaching staff at **Croatia Juniors** is encouraging all of our players to remain fit and continue to work on their skills while conducting it in a safe environment. **You Tube** is an excellent visual tool to use for finding individual soccer skill drills. All you need is a ball, some cones, and yourself. Working on your game during this layoff will help all players transition back into the team related activities much faster than those players doing nothing. If you can get out, do so. It will not only help you now, it will pave the way for success in the future.
