

White Bear Sports Center Renovation Project

The White Bear Sports Center is home to many hockey players and figure skaters, but the facility and refrigeration system are in need of repair. The estimated cost of repairing the rink is \$5.5 million. (Note: the rink renovation project will allow for a future build of a second rink, which is estimated to cost an additional \$12 million.)

The White Bear skating community has pledged \$2.5 million toward the renovation, which will begin in April 2018. Any amount we pay for in advance reduces future debt obligations. The White Bear Lake Hockey Association has already started fundraising, but we need more help!

Your support can help up us make a difference!

Please consider donating to the Rink Renovation Fund! Any contribution helps, and donations of \$500 or more will be recognized at the rink and online. Donations may be tax-deductible. Rink updates available on Facebook at *Friends of WBSC*.
