

Dear Board Members and Parents,

My name is Adam Dombek and I would first like to thank you for taking the time to read a little about me and for being involved enough to vote for the future board members in our growing association.

For those of you who I have not met, I am a proud parent of 4 hockey players. Well, my youngest, Byron, is only 21 months old but eagerly awaits his chance to get on the ice. Some of you may have seen him wondering around the rink with his hockey stick and puck, firing wrist shots at anyone willing to make eye contact with him. My oldest son, Peyton, will be moving up to peewee hockey next year and is very excited about that. My middle two boys are Hudson and Easton. They will remain at the mite level for one more year. I am Locomotive Engineer for the BNSF Railroad and spend most of my spare time at either the indoor or outdoor rink. However when I'm not working or spending time at my second home (the rinks), I am either at the lake with my family or in the woods with my boys, depending on the season.

I am asking for your support as I seek a position on our CIHA Board, so that I can do my best to represent our youth and to help build an already promising future for our association. I believe I would be a good fit for this responsibility because I am a dedicated and passionate fan of not just my kids but all of the children in this wonderful sport. I would be stretching the truth if I tried to tell you that I know what I am getting myself into, if elected to a board position, but I believe that with help from friends and all of you I could be a great part of this team that we call "THE BOARD".

I am very impressed with how well the current and previous members of this board have held things together thus far and would never say otherwise. However I do see how rapidly our community is growing and feel that our registration numbers could be higher at all levels of both the girls and boys programs. I firmly believe in strength in numbers and the more kids that register and participate, the better. More importantly finding a way to keep these kids playing will make our association stronger and more competitive. I am willing to do whatever it takes to help this organization grow and flourish.

Again, I would like to thank you for taking some time out of what I know is a busy life and voting for who you feel would contribute to help shape this hockey association.

Thanks,

Adam Dombek
