

USA SOFTBALL MINNESOTA

USA Softball Minnesota reclassifies teams and players every year following most post season state, national, and world tournaments based on the success achieved by the team and individuals. We do this to preserve competition within the class and to maintain competitive integrity.

6.03 ADULT TEAM CLASSIFICATION.

- A. Any adult team finishing in the top ten percent at their state tournament (including ties and rounding up) will be rated to the next highest team classification.
EXCEPT: Men's Super, A, and B Slow Pitch.
- B. Any player participating on an adult team finishing in the top ten percent at their state tournament (including ties and rounding up) will be rated to the next highest team classification.
- C. Any adult team that has a season record that exceeds a winning percentage of seventy percent (70%) is subject to being rated to the next highest team classification.
- D. All adult teams have the option to appeal their classification. Adult teams may only appeal once per season.

6.05 ADULT PLAYER CLASSIFICATION.

- A. Any player participating on a team finishing in the top ten percent at their national tournament (including ties and rounding up) will be rated to the next highest team classification. These players and teams will not be eligible to appeal for a minimum of two (2) years.
- B. Any player participating on a team finishing in the top ten percent at their state tournament (including ties and rounding up) will be rated to the next highest team classification. These players and teams will not be eligible to appeal for a minimum of one (1) year.
- C. Any player participating on a team finishing in the top ten percent at their state or national tournament twice (including ties and rounding up) will earn a "+" player rating designation if they have not already achieved it.
- D. All adult players have the option to appeal their classification. Adult players may only appeal once per season.

You may appeal your player rating at ASA/USA Softball website at <http://usa.asasoftball.com/Adult/usaPlayers.aspx>.

On the ASA/USA Softball website you will need to find your record in their database and then click the appeal button next to your name. When you submit it we will get a copy of your appeal and review it and maybe ask you to fill out our appeal form.

NOTE: Teams and players refusing to participate (at State and/or Nationals) in the next highest level after getting moved up will in all likelihood have their appeal denied.

USA SOFTBALL MINNESOTA
