

SUMMER TRAINING CAMP

On Ice

Jump & Spin Class: Skaters will develop better jumping and spinning skills by improving body awareness, body positioning, and faster rotation.

Edge Class / Artistry: Skaters will increase depth and control of edges, enhance stroking technique, power, and overall agility and flow. Additionally, skaters will be introduced to different types of body movement with music.

Off Ice

Skaters will work to increase muscle control, body awareness, flexibility and muscle endurance through exercises aimed towards optimal performance on the ice.

- Proper stretching techniques
- Conditioning exercises
- Nutritional and sports psychology information
