

AAU CARIBBEAN WORLD SERIES

City: Cancún, Quintana Roo, Mexico

Date: September 2018

Ages : 11-12 , 13-14

DESTINATION

The city of Cancun is young, as are most of its permanent and temporary inhabitants. It was just a small sand barrier some 40 years ago when the plan began to develop it into the vacation haven of the 21st century. Today, Cancun consists of a medium-sized coastal city and a long, thin island connected to the mainland through bridges at its north and south ends. It features world-class resorts, hotels, clubs, and malls. It offers something for everyone, from an all-day fun party beach to an isolated, tranquil island.

Here you'll find everything, from ultra chic to funky laidback, from R&B to techno, from tacos and cheeseburgers to fancy, mainstream standards. All tastes are welcomed and catered to in this paradise. No wonder this is Mexico's most popular resort.
