

2018/2109 NORMAN WILD MIDGET AAA
UPCOMING KEY DATES
MAY 2018

It is the intention of the NORMAN Regional Minor Hockey Association to once again host a Female Midget AAA Hockey team for 2018/2019 season. Players born in 2001, 2002, and 2003 are eligible to try out and play for the Wild. Second year bantam aged players are also eligible.

The NORMAN Wild Midget AAA team will play up to 30 league games, excluding playoffs, in the Manitoba Female Midget Hockey League. The Midget Wild will also participate in several showcase tournaments throughout the season. The team's goal is to play approximately 40 games throughout the season.

If your daughter is interested in trying out and playing for the Female Midget AAA Wild team, you are required to make your intentions known by May 21, 2018. A written reply on the form attached will be the only accepted way of confirming your daughter's eligibility to participate in the program. Please forward your form to address below.

If you know of any player that may be interested in the above program please forward this message to them. If player numbers do not allow the NRMHA to form a Regional Midget AAA team, only those players that completed and submitted the attached registration form by the **May 25th** deadline will be eligible to try out for another Region's AAA program.

Included with this season registration form is a question to inquire if there is interest to "centralize" the Midget AAA team. The structure would be similar to the Norman North Stars with players billeted with families, attend local high school, practice/train as a team during the week, etc. Collecting this information is for interest only. If there is enough interest in our centralized program, additional work will be completed to determine viability in The Pas/OCN. Our goal this season is to centralize for greater player/team development and performance.

If you have any other questions in regards to this program or plans for Female hockey in the NORMAN region, please feel free to call me.

Yours in hockey,

Ron Larocque
Acting NRMHA Vice Director – Female
