HOW TO CHOOSE YOUR HELMET SIZE

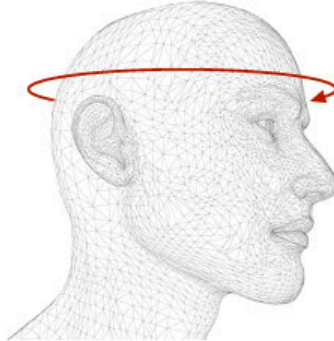

HOW TO MEASURE YOUR HEAD

Wrap a measuring tape around your head, just above the eyebrows. Note your size at the point of overlap.

If you do not have a measuring tape, simply use a piece of string and mark the point of overlap, then measure the string.

Use the size chart to establish the size helmet you should wear.

Please view our [full return policy](#) to understand why proper size is important.

SIZE CHART

SIZE	HEAD CIRCUMFERENCE
S	Up to 20 3/8"
M	20 3/8" - 22"
L	22" - 23 1/2"
XL	23 1/2" and up

If you are between helmet sizes, choose the smaller size.

Due to varying head shapes, sizes are only RECOMMENDATIONS.
