

All About Student Accounts

What Are Student Accounts?

RMHS Music Boosters offers students and families the ability to fundraise money for school-related music activities. These funds are kept in a separate savings account from the general music boosters account and are managed by the treasurer.

How Are Funds Raised?

RMHS Music Boosters offers several student fundraising opportunities throughout the year. Examples include but are not limited too: Cheesecakes, Butterbraid, Gift Cards, etc. In order to maintain RMHS Music Boosters non-profit status, 75% of funds raised by a student goes into their student's account and 25% goes into the music boosters general fund which benefits all music students. Student Fundraising is 100% Optional.

What Can Funds be Used For?

Student Accounts can be used for any school related music activity or event. Most commonly student account funds are used to help pay for school-sponsored fees, uniforms and trips. Upon request, direct payment out of a student's account is authorized by the director. Additionally, funds can be used for items that support the music student such as music lessons, supplies, and repairs. Pre-approval by the director and receipts are required for reimbursement.

What Happens to Unused Funds After Graduation?

All student account funds belong to RMHS Music Boosters. Remaining funds will be automatically rolled into a sibling's account, or by written request can be rolled into another student's account. If there is no sibling or written request, then the funds are transferred into the General Music Booster account which benefits all students.
