

HOW TO ROSTER A COMPUWARE YOUTH HOCKEY TEAM 2020-2021 SEASON

This is a time-consuming process. Please allow sufficient enough time to complete the entire process. You cannot play your first game/scrimmage until this entire process is completed and you have a stamped certified roster from the USA Hockey Associate Registrar.

OVERVIEW

This year there are changes to the rostering process and there are updated forms, and two less forms.

All the forms needed for rostering are uploaded to the Compuware Youth Hockey website on the “Managers” page, then “2020-2021 Rostering and More”. *You must include the completed Rostering Form Checklist with your documents.*

Remind all involved in the rostering process that when becoming a member of USA Hockey, they should use their name as shown on their birth certificate. For those doing SafeSport training, USA Hockey National Background Screening, age specific modules, etc., the name as shown on the birth certificate should be used. All these are linked together and not following this protocol can result in rostering delays.

- 1) Create a binder with all your paperwork/forms. Please drop these items off to the USA Hockey Arena front office, “Attention Bob DeSpirt”. All forms must be presented. E mail submissions will not be accepted. Players, coaches, managers, volunteers, locker room monitors, billet host adult family members, etc. must all have a USA Hockey Registration member number.
- 2) If any birth certificates are needed for DOB/age verification, you will be notified.
- 3) Coaches, managers, volunteers, and billet host adult family members must complete SafeSport training AND the USA Hockey National Background Screening in order to be rostered. Verification will not be required unless asked for. Be advised, it can take up to 14 days or once the background check is completed to show up in the USA Hockey Registry as verified. Follow the directions at USA Hockey to track your screening status.
- 4) All coaches must have a Concussion Training certificate on file prior to rostering.
- 5) Age Specific on line modules need to be completed for the age division coaches are rostering for prior to being placed on a roster. Verification will not be required unless asked for.
- 6) You must have at least two coaches or volunteers listed as staff to provide SafeSport locker room supervision. Four are recommended if COVID-19 policies result in the use of multiple locker rooms so that there are two screened individuals per locker room. Parents can be locker room monitors as a volunteer.
- 7) All teams are required to have a manager identified on the roster. Coaches can be listed as both a coach and manager.
- 8) Please allow 10 business days for your roster to be processed and accepted complete. Once accepted complete, the roster will be submitted to the District 4 Registrar. Do not expect expedited processing.
- 9) Rosters are generally approved within 72 hours from time of submission to the District 4 Registrar and will be sent back to you approved /stamped via email.
- 10) Once you receive your certified roster, your rostering book will be returned to you. You should retain the returned forms as they will be needed for Credentialing to enter the MAHA District and State championships. Your stamped official roster can be viewed at any time from the link provided to you. Birth certificates should not be retained.

Additional notes:

- A separate waiver document will be required to participate in the Compuware Youth Hockey dryland program. These waivers will be electronically collected separately. You will be notified when this registration is open.

- Those players participating in the HPHL are also required to electronically register with the league prior to participating in a league game. Go to www.hphl.us; then “Admin Forms”, “Member Registration”. Both players and staff need to register with the league. You will be notified when this registration is open.
- Those players participating in the LCAHL are also required to electronically register with the league prior to participating in a league game. The LCAHL will provide a registration link to complete the individual player registration once teams are registered with the league.

8. 2003 birth year players will need to complete SafeSport training prior to being placed on a roster. “All players (17) years of age or older on or before December 31 of that playing season, and that play on a team in a classification that allows minor age players, shall be required to complete SafeSport Training before being added to such team and prior to participation (on-ice or off-ice).”
9. District Registrars are being asked to look into the history for all players that did not play in Michigan the prior season. Note- we have encountered incidents in past seasons that have highlighted the importance of making sure that there is enough certified staff to support each team primarily during games, but also during practices. We need to protect our players and their families. As a result, please roster Mike Henry and Bob DeSpirt who will be placed on every team’s roster. We have determined that this is more or less a standard practice. This would come into play only in emergency situations, but we need to be prepared.

Teams are allowed/encouraged to have student coaches. The forms needed are included in the rostering checklist under Student Coaches. Here are the criteria.
