

The Wisconsin Track Coaches Association

Service Award

Presented to

Michael Chapes

This award is in recognition of your dedicated service to the track and field coaches, officials and student-athletes of the great State of Wisconsin. Your time and effort put forth for the betterment of your colleagues and student-athletes has been above and beyond the call of duty.

Your involvement with WISTCA started as a self-proclaimed “gopher” helping Mike Furlong with AV equipment at our start up Clinic in the early 1990’s. Your leadership in the Association spanned from 2001 to 2012 where you served as Door Prize Chairman, District I Representative, President-Elect, President, Past President and the website manager. You continued your service to WISTCA as an AV Specialist at the clinic and offered your service where ever it was needed. As members of WISTCA, we are grateful for your dedicated service and thank you for all you have given and accomplished for our Association.
