## CAMP OBJECTIVES

Camps are instructed by members of the WTAMU Coaching Staff and current student-athletes. The main objectives of the camps are for players to have an insight to competitive college soccer for the college-bound athlete. The goal of our staff is to help players improve their technical and tactical abilities through specifically designed sessions. Campers will learn position-specific techniques through small-sided games and full-field games. Members of the staff will run speed and agility sessions that the current team participates in on a daily basis. Special attention is given to the development of self-confidence, positive mental attitude, motivation and fun during camp. We want campers to walk away from camp with a developed knowledge and a passion for the game.

## CAMP FACILITIES

### THE PITCH AT BUFFALO SPORTS PARK

As part of Buffalo Sports Park, The Pitch was completed in December of 2010. The playing surface, which is surrounded by an all-weather running track, is made completely of AstroTurf GameDay 3D synthetic turf for a perfect playing surface, year-round. The Pitch features seating for a capacity of 1,500. Buffalo Sports Park holds a special distinction as being the largest all-artificial surface sports complex in the United States with competition playing facilities for track & field, soccer, baseball and softball.
