I. BACKGROUND

1. This Order incorporates the findings of prior Mayor's Orders relating to COVID-19.
2. Community transmission of COVID-19 is escalating throughout the District and is exploding in many parts of the country. Reinforcement to encourage community responsibility and compliance with health and safety rules is necessary. Flu season, holiday gatherings, and greater indoor activity during winter are anticipated to cause even more cases of COVID-19 and increased stress on our hospital system's capacity. Immediate further action on the part of our residents, employers, and visitors, and further restrictions on activities that are conducive to the rapid spread of the disease are warranted.
3. The District's cumulative positive COVID-19 cases now total 23,319, and 701 District residents have lost their lives to COVID-19 to date.

4. Recreation and physical health are essential to maintain; however, certain forms of recreation can pose dangers of COVID-19 to the athletes, and the experience across the country has shown that the risks are not just from on the field of play, but also from the activities of teammates off the field.
5. This Order adds to the restrictions imposed by Mayor's Order 2020-119, which suspended indoor group exercise classes at gyms and recreation centers, and limited outdoor exercise classes to twenty-five (25) persons, and it modifies requirements regarding to organized sports, and physical activity.

II. HIGH CONTACT SPORTS

1. High-contact sports as defined by the Department of Health (DOH or DC Health) (basketball, boxing, football, hockey, lacrosse, martial arts, rugby, soccer and wrestling) are prohibited in the District of Columbia, with the exception that universities or professional leagues may continue to organize and administer practices and competitions for their athletes who engage in high-contact sports, pursuant to a health and safety plan approved by its accrediting or governing body and under such further conditions as may be imposed by the Homeland Security and Emergency Management Agency (HSEMA).
2. Existing Department of Parks and Recreation ("DPR") permits may be used for non-contact drills and workouts only, for youth younger than high school aged. Any entity holding an existing DPR permit for sports involving physical contact with another player or athlete may only use the permit for the purpose of conducting non-contact drills and workouts during the duration of this Order, for children younger than high school, or for adults.
3. Youths who are middle school and younger may continue to participate in organized drills and clinics for high-contact sports, provided the athletes are cohorted in groups of no more than twelve (12), the cohorts do not mix, players within the cohorts maintain social distance from each other and the coaches or trainers, and the activities do not involve any actual physical contact with one another.

III. HIGH SCHOOL SPORTS RESTRICTIONS

1. High school extra-curricular youth sports activities and competitions are suspended for the District of Columbia Public Schools (DCPS), public charter schools, private schools, and parochial schools.

2. Recreation centers and sports clubs shall also suspend sports and organized athletic recreation activities (such as yoga and Zumba), including practices, clinics, and competitions for high school-aged athletes.

IV. MISCELLANEOUS RESTRICTIONS

1. Physical education classes shall not involve activities where students might come within six feet of one another.
2. Properly cohorted and social distanced, physical education classes and activities permitted on DPR fields may include more persons than the limits for a single outdoor class (twenty-five persons outdoors; ten indoors).
3. DPR shall suspend the issuance of new permits for organized sports and team play on DPR fields.
4. Persons may continue to use DPR fields for individual exercise or casual, non-league, non-high-contact games and activities, provided they adhere to guidance relating to social distancing and such other rules as may be imposed by DOH or other District agencies or regulatory bodies. Organizations that do not participate in a league shall adhere not only to this rule, but to the mass gathering rules as well.
5. Youths who are middle school and younger may continue to participate in organized drills and clinics for high-contact sports, provided the athletes are cohorted in groups of no more than twelve, the cohorts do not mix, players within the cohorts maintain social distance from each other and the coaches or trainers, and the activities do not involve any actual physical contact with one another.
6. DPR may set additional conditions on permits it has already issued to set limits or new, smaller limits, on the total number of persons allowed to participate at any one time, and to set other conditions aimed at reducing the spread of COVID-19.

V. ENFORCEMENT

1. Any individual or entity that knowingly violates this Order may be subject to civil and administrative penalties authorized by law, including sanctions or penalties for violating D.C. Official Code § 7-2307, including civil fines or summary suspension or revocation of licenses.
2. The District of Columbia reserves the right to exercise provisions of the Communicable and Preventable Diseases Act, approved August 11, 1939, 53 Stat.

1408, D.C. Official Code §§ 7-131 *et seq.*, if warranted, and to issue regulations providing for civil and criminal penalties and injunctive relief for violations of this Order.

VI. SUPERSESION

This Order supersedes any Mayor's Order or guidance issued by a District agency issued during the COVID-19 public health emergency to the extent of any inconsistency.

VII. EFFECTIVE DATE AND DURATION

This Order shall be effective at 12:01 a.m. on Friday, December 11, 2020, and shall continue to be in effect through December 31, 2020, or until the date to which the COVID-19 public health emergency is extended, whichever is later.
