SLOT ALLOCATION PROCESS

CLASSIFICATORY SLOTS

This event offers 45 Age Group Slots + 15 Women For Tri slots to the IRONMAN 70.3 World Championship 2024 in Taupo, New Zealand held on December 14th and 15th, 2024. Please note, slot allocations are subject to change and may be verified, [here](#).

To accept a slot to the 2024 VinFast IRONMAN 70.3 World Championship, qualified athletes must claim their slot in-person at the Slot Allocation Ceremony at the advertised time and location. Photo ID is required to be presented and payment must be made at this point in time. Once payment is completed, athletes will receive a registration invite for the relevant world championship event in the following days, and **this must be completed to be registered for the event.**

SLOT ALLOCATION PROCESS

How does the Age Group Slot Allocation Work?

"Age Group" refers to a grouping of athlete peers based on their gender and age range. For example, 'Male 25-29' is one Age Group, and 'Female 25-29' is another. Your Age Group is determined by your age as of December 31 of the year of the event. For example, if you are Male and turn 25 in 2023, then your Age Group Category for any race in 2023 is M25 – 29.

The following Slot Allocation Process will be conducted for each gender separately

Before Race Day:

Each Age Group with registered athletes is tentatively allocated one slot each (an "Initially Allocated Slot") All other slots available for the race (the "Proportionally Allocated Slots") are not allocated until race day.

On Race Day:

If there are no starters in an Age Group, then that Age Group's Initially Allocated Slot is removed and pooled with the Proportionally Allocated Slot
The Proportionally Allocated Slots are then distributed among all Age Groups based on the number of starters in each Age Group. This allocation is based on the ratio of athletes in each Age Group within the gender, i.e., the more athletes in an Age Group, the more slot allocations they receive

After The Race Before Roll Down:

If there are no finishers in an Age Group that had one or more starters, then the Initially Allocated Slot for that Age Group is re-allocated, within the same gender, to the Age Group with the highest ratio of starters to slots .

During Roll Down:

If any slot allocated to an Age Group is unclaimed (after Roll Down for that Age Group is completed), then that unclaimed slot is re-allocated, within the same gender, to the Age Group with the highest ratio of starters to slots

OTHER INFORMATION

Only Age Group Athletes are eligible to receive Age Group World Championship Qualifying Slots. Athletes holding current Professional or Elite status with any World Triathlon Member, National Triathlon Governing Body, WTC's Pro Membership program or having raced as an elite athlete in any international events during the calendar year, are not eligible for Age Group Slots. Athletes may not at the time of the event, nor at the time of the World Championship event they qualified for, hold Professional or Elite status.

Any change in an athlete's status prior to any event participation or a qualified World Championship event must be disclosed to WTC immediately. Failure of the athlete to make such disclosure will be cause for disqualification from such event and may result in sanction from WTC Events.

5 TOP THINGS TO DO

15 KILOMETRES OF GOLDEN BEACH

Jesolo is also known as the City Beach for its wide golden beaches, warm sunshine and crystal-clear sea certified by the Blue Flag every year. The 15 km of sandy shore stretching between the Jesolo Marina Resort and the Cortellazzo Marina Resort host well-equipped and organised bathing establishments. It is the ideal destination for those seeking a summer holiday with their feet in the sand, pampered by the hospitality of the facilities overlooking the sea and the "Lungomare delle Stelle".

VIA DEI FORTI

An open-air museum that aims to enhance and connect the fortifications located along the Cavallino- Treporti coastline by means of a route through nature and memories of the area. A historical route, a diffuse open-air museum circuit linking the fortifications belonging to the 1845-1920 period. The fulcrum is the V. Pisani Battery, an artefact from before the First World War, now restored and converted into a museum. A number of exhibitions have been set up inside, leading to the discovery of the history linking Cavallino Treporti to the Great War and beyond

RISAIA

After a nice dip in the sea and a refreshing walk in the pine forest what you need to do to take a beautiful memory of Eraclea with you is a visit to the local farm, specialised in rice production since 1960. On a bike tour you can discover all the secrets of this important cereal, take part in a cooking class and taste 0 km products!

VENEZIA

The city of water is one of the most extraordinary UNESCO sites in the world, a romantic destination to explore along its many canals on board a gondola. But above all, it is a city of art, rich in the splendours accumulated over the years of the Serenissima's history. A piece of advice to enjoy Venice to the full: live it on foot, losing yourself in its tangle of calli and bridges, exploring corners that will reveal small artisan shops or small restaurants where you can taste local specialities.

ENOGASTRONIMIC SUGGESTIONS

There are many local delicacies, but we recommend at least three dishes you absolutely must try here in the Eastern Veneto! First of all the 'sarde in saor', an appetiser based on fried sardines preserved in a mixture of onions, vinegar, pine nuts and sultanas. Then the 'baccalà mantecato', originally a poor man's dish that has now been elevated to gourmet status.
