

VISITOR HEALTH SCREENING CHECKLIST

If you can answer “Yes” to any of these questions or develop any of these symptoms while you are here you must go home. You should stay away from other people and contact your healthcare provider.

Do you have any of these symptoms that cannot be attributed to another health condition:

- ☐ **Fever (100.4°F) or feeling feverish?**
- ☐ **Chills?**
- ☐ **A new cough?**
- ☐ **Shortness of breath?**
- ☐ **A new sore throat?**
- ☐ **New muscle aches (not caused by a specific activity such as exercise)?**
- ☐ **New headache?**
- ☐ **New loss of smell or taste?**
- ☐ **Diarrhea or vomiting in the past 24 hours?** ☐

**Direct contact with a person in your household
experiencing an undiagnosed cough and fever or
has been diagnosed with COVID-19**
