# GameSheets Program

Create an Account from your computer: https://gamesheetinc.com/
- Only Managers need to do this

On the next screen where it asks for Invitation Code. Each Team has 2 Invitations Codes (one for D2 and one for Exhibition – which is for non-D2 Games). Just enter one of them for now. Then fill out your information.

On the next screen you'll be able to enter your other Invitation Code, just click on your name in the top right corner and select Accept Invitation

Then Enter the other Invitation Code and click Update Account

Next Click on the below areas: USAH – Minnesota District:

Please go to Season Teams – View Teams
- Click on your Team.
- Double check that your rosters are accurate and jerseys #'s are accurate. This is pulled directly from your USA Hockey Roster so if changes need to be made, please notify the Secretary immediately. Do not make any changes here on your own.

Game Day - Using the Ipad

The ipad is mounted on the score table in Lichtscheidl.
(Note there will be an extra one in the concession stand if needed for the fieldhouse, you will need to check it out and return before/during your game)

The password to turn on the ipad is: flha22
Each ipad has the Game Sheets App loaded, open the app.   If the app asks for the Ipad Key, enter: `ipad-md2gasfrb`

Managers or 1 Designated person should be in charge of Starting the Games (this is where you either load it from the schedule or create new).

- Review the tutorials for how to set them up, the program is fairly straightforward and even provides "Errors" if you missed adding something.
- Reminder – go to Leagues – D2 for District Games, all others are Minnesota Hockey – Exhibition
- D2 games should be pre-loaded (at least that is what we've been told). You just need to locate it in the system.
- All other games will need to be created under Minnesota Hockey – Exhibition. Again there are tutorials for what is needed here.

I encourage you to share the videos for Scoring the Game with your parents. Yes there are a lot but they are only 30-45 seconds.
