

Parent Investment Expectations

Many parents ask the question, “How much will it cost for my child to participate?” Below is a list of items a parent can expect to invest in during the season. A majority of these are necessary items for the season, which are not built in-to the cost of registration.

Please note that these prices are estimates and are subject to change each year. The cheer director will advise as to what is a required item at the beginning of the cheer season.
