RATIONALE FOR CHANGE:

To make this procedure standard within the Norman Region for all included Games. In this way Associations and Teams will know their responsibility and Officials will know what to expect and that Officials will receive payment in a timely manner. This procedure is already in place and being followed by our Regional Teams and in some of the Associations around our Region, some are using the cash collected during these events from 50/50 tickets and other initiatives. There is also a potential for an increase / expansion of Exhibition Games or Regional Leagues within our Region in the future. Creating a policy for payment of Officials for those potential games ahead of time will make those involved aware of their responsibilities and potential costs when looking at hosting games.
