SURRENDER FORFEITS THREE GAMES

loses two to Stingray, one to Murderers Row

According to their captain, Moses Eastman, ten men had promised to show. When their 10:00 A.M. game rolled around they had but six players. To Eastman's credit he made a honest effort to get his team to the field, why they didn't show, only those players know. The league knows this, It is something that we cannot stand for. There is nothing worse for the league than this behavior, players make commitments they should keep them. The opposition comes to play, they don't want forfeits. they want to play!
