

Treasurer's Report
April 30, 2017

The Skating Association of Maine has completed the Fall/Winter programs to date. We have been fortunate to unite skaters from several communities throughout our state as members of our teams and classes.

Again this year, fundraising was very successful supporting our scholarship and education programs. We thank our SAM members for their participation in efforts to raise funds for our youth as well as businesses and individuals who continue to support our association. All together we are building community on and off the ice.

Our Spring/Summer programs are now in progress offering several opportunities for our youth to continue building upon their skating skills and success.

Congratulations to all the SAM skaters for their achievements again this year. Our figure skaters were part of successful competitions, exhibitions and test sessions. Once again, our hockey teams captured state and national titles. We are proud and happy for their success.

Happy skating,

Sandra Prescott
SAM Treasurer
